# Etienne Range

## Care and Maintenance

---

### Wood Furniture

The Etienne range has been sourced by John Lewis from the finest American Oak and each piece has been carefully constructed to ensure it will give you years of pleasure. The natural characteristics of this oak range may include small cracks, knots, blemishes and grain pattern variations which all add to the natural charm and beauty of this furniture product. Each piece is unique, and for this reason no two pieces within the range will perfectly match, however there will be harmony between all the pieces you may have purchased.

### How to care for your wood furniture

Try to avoid prolonged exposure to direct sunlight as this may alter the colour and the tone of your furniture over time.

Any spillages that do happen should be wiped up immediately with a clean dry lint free cloth to avoid marking the surface of the furniture.
