

Plasma Ball Instruction Manual

How To Use

- Place the product on a flat horizontal surface. Connect the adapter plug to the base and slide the selector switch to the "ON" position.
- By moving the switch to the "Sound" position, the plasma ball will respond to all sounds.

How It Works

The Plasma Ball contains a gaseous mixture, the base produces high frequency eletromagnetic waves that cause the gases to turn into plasma, which is an ionized gas. The ions produced emit energy and appear as coloured "streamers". The Plasma Ball responds to your touch. You may feel a slight tingling sensation, which is caused by the vibrations on the glass ball as the electrons strike the surface of the ball.

Important Safe Guards

- 230V~50HZ 12V DC 500MA. adaptor only.
- In order to avoid personal injury or product damage, do not attempt to remove the base from the ball.
- To prevent fire or shock hazard, do not expose this product to rain or moisture. Never immerse the unit into water.
- Keep away from children and pets.
- Allow adequate ventilation. Never place the product near a radiator, heat system, or near a fireplace.
- Clean the unit with a soft cloth. Before cleaning, slide the selector switch to the "OFF" position and disconnect the DC adaptor.
- If the unit is dropped, causing obvious breakage, unplug it immediately.
- If damage is suspected or if the product exhibits a distinct change in performance, discontinue use immediately. Take it to a qualified service centre for inspection and repair.
- If the product will not be used for an extended period, unplug it from the power source. Keep other objects from coming into contact with the glass ball. For indoor use only.

Warning

To reduce the risk on an electric shock:

- Do not open the of base of the product.
- Do not attempt to remove the glass.

230V~50HZ 12V DC 500MA.
6" Plasma Bulb.

For indoor use only.

Only use the transformer as supplied.

Only use the mains power lead supplied.

This product bears the selective sorting symbol for waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European Directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. For further information, please contact your local or regional authorities. Electronic products not included in the selective sorting process are potentially dangerous for the environment and human health due to the presence of hazardous substances.
