WITH TRADITIONAL SPRUNG SLATTED BASE

Using the latest patented Micro Pocket Spring technology, this JAY-BE folding bed combines all the benefits of a compact guest bed with the added comfort of a luxurious natural pocket sprung mattress. Sitting on a sprung slatted base which flexes as you move to offer adaptable support, the pocket sprung mattress has over 400 individual pocket springs, which adapt to the contours of your body to offer exceptional personal comfort. Fine lamb's wool fillings help to regulate body temperature and the mattress is topped with Pure Cotton to help keep you dry

and fresh throughout the night. The robust steel frame is finished in a high quality durable epoxy paint finish for a long lasting new look and the 360° castors allow easy manoeuvrability. Fully automatic folding legs open on their own so it is easy to put up in seconds. The automatic folding leg mechanism make the JAY-BE® Mayfair folding bed more compact when folded than other folding beds. Suitable for regular use, all JAY-BE® folding beds are made in the UK and come with a FREE lifetime frame guarantee for your complete quality assurance.
