# Sleep Technology™ by TEMPUR®

## Pioneers in sleep technology

At TEMPUR®, we're driven by a passion for innovation and the desire to give you the best possible night's sleep. We believe this can only happen on a mattress that's supportive and comfortable.

### Innovation in our DNA

Our passion was established over 30 years ago, when a team of scientists at NASA developed a ground-breaking material to provide support to astronauts during lift-off. We quickly realised it would revolutionise the way people sleep, and our committed engineers and sleep scientists set about perfecting TEMPUR® material.

### A tireless quest for perfection

Actually, it doesn't stop there. We invest tens of millions each year into research and testing. Plus we're supported by a certified panel of sensory experts and sleep specialists. This ensures that every element of every product we create performs in such a way that you can enjoy hours of perfect restful sleep, night after night. All you feel is weightless.

### Here's how it works

TEMPUR® material is designed to conform to the shape of your body, absorb motion and relieve pressure in all the right places – the key components to a supported, peaceful night's sleep. Mission accomplished.

Sleep Technology™ by TEMPUR®

# Sleep Technology™ by TEMPUR®

## The best night's sleep by design

Our sleep experts, designers and engineers have spent years pioneering and perfecting our signature TEMPUR® material to ensure you receive the personalised support and outstanding comfort your body needs.

## Maximised pressure relief

TEMPUR® material is a pressure-relieving surface, engineered with an open cell structure that absorbs and evenly distributes the weight of your body and maximises comfort.

## Personalised body support

We have designed TEMPUR® material to be in the ideal state to soften, compress and conform to your shape and weight at average bedroom temperature. Whichever position you find most comfortable, TEMPUR® adapts to you.

## Outstanding motion absorption

TEMPUR® material absorbs motion – so you and your partner can move and are less likely to disturb one another. Motion absorption is measured through rebound – the lower the better. Drop a weighted ball onto standard memory foam and it can rebound up to 20%. TEMPUR® has a rebound less than 3%.

## No Turning Required

TEMPUR® mattresses are guaranteed to retain their shape so there is no need to turn or flip your mattress over.

## Mattress Label Design

We've made it even easier to find the best mattress for you with our vibrant, colour-coded labels.

## 10 Year Guarantee

We guarantee our mattresses for 10 years. In this time it will retain at least 95% of its height, with no lumps or bumps – just outstanding performance for years to come.

# Find your perfect fit

## Comfort for every style of sleeper.

We've created four distinct mattress collections. Each feels unique, offering a different style of comfort, but all are designed to conform and adapt to the exact shape of your body. Our four flagship collections showcase what we are known for around the world: sleep technologies based on the original TEMPUR® viscoelastic material.

## TEMPUR® Hybrid Collection

### If you need a faster response.

Our most innovative design yet. TEMPUR® material relieves pressure points, while layers of Precision™ micro coils conform and react to your body's movement.

Key to mattress profile

TEMPUR® material

The original TEMPUR® material that conforms to your shape, relieves pressure points and absorbs partner motions.

Advanced TEMPUR® material

Slightly firmer TEMPUR® material that conforms to your shape, relieves pressure points and absorbs partner motions.

TEMPUR® Support material

Provides the firm support your body needs by conforming to your shape and weight, distributing pressure evenly across the mattress.

TEMPUR® Extra Soft material

Instantly cushions and cradles you, conforming to the shape of your body and supporting you with an enveloping feel.

Dynamic Support Technology

Works together with TEMPUR® material and TEMPUR® Advanced material to support you lightly, allowing you to move about easily.

Precision™ micro coils

Made from state of the art, cold drawn steel, each micro coil is individually pocketed to react to your body's movement and provide exceptional support.

DuraBase™ Technology

Works in conjunction with the layers above, allowing the technologies and materials to maximise your comfort and support for the life of the mattress.
