

Light Up Shower Speaker

PACKAGE CONTENTS

Water speaker with suction cup and charging cable.

CHARGING

Please ensure the battery is fully charged before use.

To charge the speaker, connect the Micro USB cable provided to the correct port and connect the other end to a USB power outlet (5V adaptor not included).

Allow 3-4 hours to fully charge. The red indicator light will illuminate when the speaker is charging.

When fully charged, the indicator light will go out.

Do not charge near water.

HOW TO USE

Hold down the power button (1) for 2 seconds to turn ON the speaker.

The LED ring indicates the device is in pairing mode.

Enable Bluetooth on your device and select the speaker from the list.

When pairing is successful, the LED ring light will remain solid.

To change the LED ring colour press the bulb button (2).

Hold down the power button (1) for 2 seconds to turn OFF the speaker.

SAFETY CARE AND INSTRUCTIONS

- Do not attempt to disassemble the unit.
- Do not puncture or harm the exterior surface of the product in any way.
- Do not drop or let the unit fall from high places, as doing so may damage the device.
- Do not use this unit for anything other than its intended purpose. Doing so may damage the device and void the warranty.
- This product is not a toy. Keep out of reach of children.
- Do not expose batteries or battery pack to excessive heat or open flame.
- Do not expose the unit to extremely high or low temperatures as this will shorten the life of the device, destroy the battery, and/ or distort certain parts.
- Do not use abrasive cleaning solvents to clean the unit.
- In order to prolong battery life, turn off when not in use.

This product bears the selective sorting symbol for waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European Directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. For further information, please contact your local or regional authorities. Electronic products not included in the selective sorting process are potentially dangerous for the environment and human health due to the presence of hazardous substances.
