Thank you for buying your new Remington® product. Please read these instructions carefully and keep them safe. Remove all packaging before use.

IMPORTANT SAFEGUARDS

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been supervised/instructed and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be done by children unless they are older than 8 and supervised. Keep the appliance and cable out of reach of children under 8 years.

Suitable for use in a bath or shower.

- Do not use the product with a damaged cord. A replacement can be obtained via our International Service Centres.
- Do not leave the appliance unattended while plugged in except when charging.
- Do not use attachments other than those we supply.
- Do not use the appliance if it is damaged or malfunctions.
- Do not plug or unplug the appliance with wet hands.
- This appliance is not intended for commercial or salon use.

- | | |
|-----------------------|--------------------------|
| 1. On/Off switch | 5. 1 mm comb |
| 2. Blade | 6. 2 mm comb |
| 3. Charging connector | 7. 4 mm comb |
| 4. Charging indicator | 8. USB cable (not shown) |
-

GETTING STARTED

Charging your appliance

It is recommended to fully charge your appliance before using for the first time. Please refer to the charge times shown in this book.

- Ensure the product is switched off.

- Connect the product to the USB cable and then connect the USB end of the cable to a powered USB port.
- When fully charged, the charging indicator will come on.
- Run time from fully charged is up to 40 minutes.
- Charge time from empty is 12 hours.

Note: To preserve the life of your batteries, let them run out every 6 months then fully charge.

INSTRUCTIONS FOR USE

Switch the product on by pressing the On/Off switch.

Always comb your beard or moustache with a fine comb before you start trimming.

Attaching and removing the combs

1. Select the desired trimming length comb. Place the comb over the top of the blade and gently push this down onto the blade until it clicks into place.
2. To remove the comb, grasp the comb and pull firmly upwards and away from the groomer.

To trim the beard

1. Select your desired trimming length comb. If you are trimming for the first time start with the maximum trimming length setting.
2. Turn the unit on.
3. Place the flat top of the fixed comb against the skin.
4. Slowly slide through the hair. Repeat from different directions as necessary.
5. If hair builds up in the trimmer comb during the trimming process, switch the unit off, pull off the comb and brush the hair off.

To get a shaven look

To trim any length of beard or stubble hair for a clean, shaven look then follow the above steps without a comb attached to the blade head.

Place the flat top of the blade against the skin and slowly slide through the hair against the direction of growth.

Trimming and edging

1. Hold the groomer with the back side of the blade facing you with no combs attached.
2. Start with the blades resting lightly against your skin, use motions towards edge of beard line to trim to desired locations in facial area.
3. Shape as desired.

Trimming with shaving gel

Follow the same instructions as dry shaving if using shaving gel.

Caution: After use with shaving gel, please rinse the blade under warm water to clean away any excess gel and debris.

CARE OF YOUR GROOMER

To ensure long lasting performance of the groomer, clean after each use.

The easiest and most hygienic way to clean the groomer is by rinsing the head under the tap after use while the blades are running.

To keep the unit in optimal condition we recommend re-oiling the blades after cleaning. Place a few drops of cutter or sewing machine oil onto the blades. Wipe off excess oil.

BATTERY REMOVAL

We strongly recommend that a professional removes the rechargeable battery. Parts of the shaver case, and tools have sharp edges and may cause injury if not handled correctly.

- The rechargeable battery must be removed from the appliance before it is scrapped.
- Disconnect the charging adapter before removing the battery.
- 1. Ensure the trimmer is discharged of all power.
- 2. Remove the comb attachment.
- 3. Pry off the bottom part below the grips.
- 4. Press in the exposed tabs and pull the internal frame out.
- 5. Disconnect the battery from the circuit board and internal frame.
- Used batteries must be removed from the appliance and disposed of at an appropriate official recycling/collection point.
- Do not attempt to operate the shaver once you have opened it.

RECYCLING

To avoid environmental and health problems due to hazardous substances, appliances and rechargeable and non-rechargeable batteries marked with one of these symbols must not be disposed of with unsorted municipal waste. Always dispose of electrical and electronic products and, where applicable, rechargeable and non-rechargeable batteries, at an appropriate official recycling/collection point.

SERVICE AND GUARANTEE

Defects affecting product functionality appearing within the guarantee period will be corrected by replacement or repair at our option provided the product is used and maintained in accordance with the instructions.

Your statutory rights are not affected.

Consumables are excluded.

Defects from repair by an unauthorized dealer are not covered.

If you call the Service Centre, please have the model number to hand, as we won't be able to help you without it. The model number can be found on the rating plate of the appliance.
