# WALL FIXING INSTRUCTIONS

## SECURING YOUR FURNITURE TO THE WALL

\* USE APPROPRIATE  
FASTENER BASED UPON  
WALL COMPOSITION

This product could be dangerous if incorrectly installed.  
Installation of this product is only to be carried out by a competent person.  
Check the suitability of the wall and check that the fastening devices will withstand the forces generated.

## Wall fixing - if in doubt seek professional advice

**Wood**  
If fixing to wood  
make sure that it  
isn't chipboard as  
screws can easily  
pull away from the  
core structure

**Brick or Masonry**  
Use an appropriate  
wall plug provided you  
are sure your wall is  
sound.

**Cavity wall**  
Special toggle  
wall plugs are  
needed. Seek  
expert advice

# Step By Step Assembly Instructions

- Step 1** : Attach 8 x wood shelf supports (A) into the predrilled holes inside the small sideboard as shown.  
:Place the removable shelf (2) over the previously attached fittings (A) as shown.

Fitting

A x 8

# Care and Maintenance

## Wood Furniture

Wood displays different grain patterns depending on which way they are cut - for example, the 'medullary ray' which can appear on oak furniture is a mark of good quality timber - these are just characteristics of the natural beauty of the wood.

Some furniture is also deliberately aged and rustic.

Wood veneers also allow distinctive patterns to be created on some surfaces, such as table tops and drawer fronts by the way slivers are arranged.

All timber and veneer surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

## How to care for your wood furniture

Dust with a clean, damp, lint free cloth. Frequent dusting will remove abrasive build up, which can damage the finish over time.

Do not use a very wet cloth or allow any liquid to contact with the veneers for a long period of time as this can permanently damage the surface. Wipe up spills immediately.

Do not use any abrasive cleaner or harsh detergent as this can damage the surface of the furniture.

Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.

Make sure all surfaces are protected from heat and liquids by mats and coasters.

Ensure that a mat or pad is placed under paper when you are writing on the furniture surface.

Do not place rubber or plastic materials on the wood finish as chemicals within may react with the finish if left in contact for an extended period of time.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by home heating can cause damage such as warping, cracking or splitting.

Excessive exposure to sunlight can cause fading of your furniture.

## Safety Instructions:

Never drag furniture when moving it. Always lift it.

Periodically check all fixings to ensure none have come loose. Re-tighten when necessary.

Please take care when handling or moving the furniture as careless handling may cause damage or injury.

Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person.

No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

It is recommended to seek assistance when moving a heavy object. Take care when lifting to avoid personal injury and (or) damage to the product.

It is recommended that before moving a heavy object to a new location it is completely dis-assembled to avoid personal injury or damage to the furniture. Please be careful to retain all fitting when doing this.
