

# TURBOCHARGE YOUR MOBILE BROADBAND GIVE IT 4GEE.

Want superfast 4GEE speeds on your tablet or laptop on the go? Then try 4GEE Mobile Broadband. Only from EE.

Buffering video clips and waiting a lifetime for downloads can be really frustrating. But with superfast 4GEE, the UK's first mobile 4G network and Mobile Broadband from EE, we've changed your digital life for good. That's a promise.

**Here's why you should choose EE:**

 Superfast 4GEE is five times faster than 3G, and its only available on EE

 No unexpected charges. You will receive a text when you are approaching your data limit, and then again when you are at your limit giving you the chance to buy more data. This means that you can never go over and run up large bills

 2 for 1 cinema tickets every Wednesday

 Unlimited WiFi

 EE has the UK's only 4G network, its live in 50 towns and cities already and we're adding 4GEE to new areas of the UK all the time. Remember as an EE customer you also have access to our 3G network, the biggest in the UK

If you would like to know more about EE go to [ee.co.uk](http://ee.co.uk)

Speeds depend on location and how many other people are using 4G too. 5 times faster: Based on 1.5 Mbps UK average speed for 3G (source: most recent Ofcom speed survey) and 8-12 Mbps average speed for 4GEE (source: EE data). See ee.co.uk for details.

## MOBILE BROADBAND. DON'T GO OUT WITHOUT IT.

We're proud of 4GEE, our new superfast mobile 4G network for the UK. It means that for the first time ever you can get superfast 4GEE when you are out and about.

**> Start on the bus, finish on the sofa:**

Don't wait until you get home to enjoy a film. Choose a film from the EE Film Store to watch on your tablet while you're on the bus. Then simply switch to your laptop when you get home.

**> Download without the overload:**

20MB? 50MB? Download enormous attachments when you're on the go. We never let you run over your data allowance.

Instead we tell you when you're running out and let you buy more – so no nasty surprises on your bill.

**> Take on the world:**

Play awesome multiplayer games with anyone from the comfort of your sofa. Then if you go out, because of 4GEE Mobile Broadband you can take your game with you and keep going.

**> Want proof?**

Sometimes, the only way to believe it is to see it. So we took 3G and 4G devices into the UK's cities for a real-world demo of how fast 4G really is. To see the video, scan the QR code, or go to [youtube.com/ee](http://youtube.com/ee)
