At the moment, we'll decide that you're breaking this condition if you text more than 200 different numbers over the course of the month with your free unlimited texts. Remember, we're free to decide that other types of use may also be breaking this condition. If you do break this condition, we'll disconnect your SIM card from our network without giving you any advance warning. If you use, whether directly or through a third party, any device to route or re-route voice, text messages or other services on, from or to the network or you sell or attempt to sell or otherwise provide commercial services using our network to any third party, we'll remove your free minutes or texts from you and/or disconnect your SIM card from our network without giving you any advance warning.
