

Thank you for purchasing The A Stool. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Plywood furniture

Wood displays different grain patterns depending on which way it is cut. Plywood is made from layered sheets and therefore the edges can vary in colour and grain pattern. Plywood can have small holes within the layers of birch wood due to knots falling out. Some knots remain and are coloured black. However, all edges are sealed to stop moisture getting in.

All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

Phenol laminate can fade over time. Not for outdoor use.

How to care for your furniture

Furniture with a Phenol laminate should be dusted with a slightly-damp, soft cloth and wiped dry to remove fingerprints and dirt.

Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.

Make sure all surfaces are protected from heat and excessive liquid. Wipe spills dry immediately.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with plywood as the lack of humidity caused by central heating can cause damage such as warping

Note

This information is intended only as a general guide. For severe scratches or stains, and anything else not listed, it is recommended that you contact an experienced trades person.

This product has been tested by the SATRA Technology Centre and has passed the BSEN 125220:2010 test for strength, durability and safety for domestic seating.

General warnings

Never drag furniture when moving it, always lift it. Periodically check all fixings to ensure none have come loose and re-tighten where necessary. Please take care when handling or moving the furniture as careless handling may cause damage or injury.

Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

Stool specific warnings

Never tilt the stool. Ensure the stool is always placed firmly on the ground. Never place hot objects on top surface.

Important safety note

Do not: Use the stool as a ladder.
Do not: Climb or stand on the stool.

Please keep these instructions for future reference.

Pre-assembly preparation

Please ensure instructions are read in full before attempting to assemble this product.

Necessary tools

Please check the pack contents thoroughly before attempting to assemble this product. A full checklist of components is given in this leaflet. If any components are missing, please contact the retailer from whom you bought this product.

This product takes approximately 5 minutes to assemble for 1 person.

The fittings pack contains small items which should be kept away from young children.

Fittings and parts checklist

a) Allen head screws x4

b) Allen key x1

c) Circular stool seat x1

d) A-shaped legs x2

Step-by-step assembly instructions

1 Slot the two A-shaped legs together

2.1 Turn the circular stool seat upside down, placing the top face down on a hard, smooth surface. Avoid rough surfaces that can scratch the seat. 2.2 Turn the joined two A-shaped legs upside down. Place them on the seat with screw holes of both sections aligned.

3 Insert Allen head screws (x4) into holes; through the leg hole into the seat hole and tighten with Allen key.

4 The A Stool is complete, celebrate by having a well deserved sit down.
