**Experts on Hand**

If you're buying some new ceiling or wall lights from us, you may be looking for an electrician, or even wondering whether to try to put them in yourself. Instead, why not book our Lighting installation service? It's quick, convenient and good value, with all the expert service that you would expect from us.

### **How does the service work?**

We'll deliver your new light fittings to your home at a time that's convenient for you, assemble and install them so you'll be able to enjoy your new lighting as soon as possible, with the minimum of hassle.

### **What does it include?**

Our qualified lighting installer will carry out essential checks to make sure the installation complies with NICEIC\* standards. We'll test your electrical circuit and wiring to ensure that everything is compatible and safe. To do this we need to turn all power off. Once passed, we'll check that your ceiling can handle your new light and remove your existing light fittings. Finally we'll install your new lights in the same position as your previous fittings.

### **What's not included?**

It's worth noting that our Lighting installation service does not include any modifications to wiring, changes to building fixings on or behind surfaces, or the 'making good' of plastering or decorating.

### **How much does it cost?**

Fitting your first light costs £69 and every subsequent one costs £49.

### **Want to make an appointment?**

You'll need to book the service when you buy your new lighting from us in store, so please talk to one of our Partners at the time of ordering.

**Terms and conditions** 1. Service includes like for like replacement installation of wall or pendant lights to an existing safe wiring point (this does not include the installation of any recessed lights). 2. To complete the installation safely it is necessary to switch off the mains power at the consumer board. This will mean that you may need to reset any timers. 3. We cannot install higher than 10 foot. 4. We do not change dimmers and switches. 5. We do not make good around the light fixing.

\*NICEIC (National Inspection Council for Electrical Installation Contracting) is the UK electrical contracting industry's independent voluntary body.
