Wall fixing - if in doubt seek professional advice

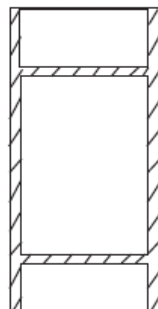

Wood

If fixing to wood make sure that it isn't chipboard as screws can easily pull away from the core structure

Brick or Masonry

Use an appropriate wall plug provided you are sure your wall is sound

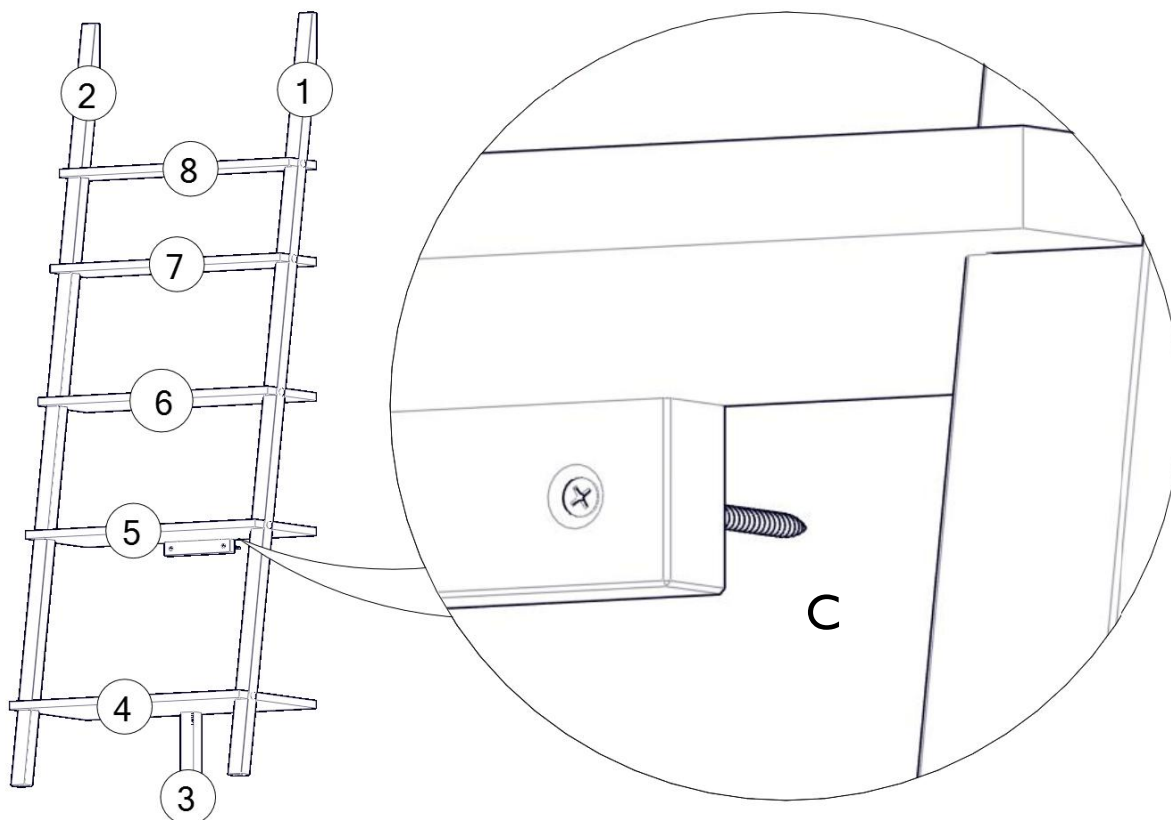

Cavity wall

Special toggle wall plugs are needed. Seek expert advice

Step Seven (Brick or Masonry)

1. Mark the drill hole positions.
2. Remove the unit and drill a 8mm diameter hole to a depth of 65mm in the marked positions.
3. Insert wall plug supplied.
4. With help, lift the unit up and aligning the holes, fix to the wall using the screws supplied and tighten fully.

The assembly is now complete.

Care and Maintenance

Wood Furniture

Wood displays different grain patterns depending on which way they cut - for example, the 'medullary ray' which can appear on oak furniture is a mark of good quality timber - these are just characteristics of the natural beauty of the wood. Some furniture is also deliberately aged and rustic.

Wood veneers also allow distinctive patterns to be created on flat surfaces, such as table tops and drawer fronts by the way the slivers are arranged.

All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

How to care for your wood furniture

Furniture with a hard lacquer, wax polish or painted surface should be dusted with a dry cloth.

Waxed furniture will need to be given a coat of beeswax a couple of times a year to help maintain its luster.

Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.

Make sure all surfaces are protected from heat and liquids by mats and coasters. Wipe up spills immediately and ensure that a mat or pad is placed under paper if you are writing.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with solid wood as the lack of humidity caused by central heating can cause damage such as warping

Safety Instructions

General warnings:

Never drag furniture when moving it, always lift it.

Periodically check all fixings to ensure none have come loose and re-tighten where necessary.

Please take care when handling or moving the furniture as careless handling may cause damage or injury.

Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture. Do not use this colosseum bookcase as a ladder for climbing!

Specific warning for heavy items:

It is recommended that before moving heavy objects to a new location they are completely dis-assembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.

This product meets the standards BS 4875-7:2006-level 3 and 4, BS 4875-8:2006
