John Lewis

Good to know

Here at John Lewis, we've been selling kitchens for over 80 years and we're known for inspirational design, excellent quality and value.

There are styles both modern and classic, and with the help of our expert fitted kitchen service we'll help you create your own individual design, including full planning and installation. If you prefer, you can buy and install units yourself.

All our John Lewis fitted kitchen ranges are made in the UK and come with a 10 year guarantee included in the price. We offer interest free credit when you spend £1,000 or more, see page 107 for details. So as well as a beautiful new kitchen, you can enjoy complete peace of mind.

All our John Lewis fitted kitchen ranges are made in the UK

Completing your kitchen	80

Buying a kitchen at John Lewis in four easy steps:

1 Choose

Book a shopfloor appointment with one of our Partners, share your dream kitchen ideas and discuss your requirements. The Partner will help you choose the best range for your style, lifestyle and budget, and arrange samples for you to view in your home.

Once you've decided what style of kitchen you want, it's time to book a planner to visit your home (costs £50 but fully redeemable against the purchase of your kitchen).

Points to consider at this stage

- How you use your kitchen? As a family hub, an entertainment space, or a space only for cooking.
- Your room dimensions.
- Your budget.
- The style of kitchen (classic or contemporary) kitchen doors, and worktops that you like.
- Whether to include any features or appliances in your current kitchen.
- Sinks and taps required.
- Lighting requirements (both for function and mood).
- Storage and accessories requirements.

2 Create

A planner will visit you in your home to survey and take accurate measurements. Using the latest computer technology, they will design a room that suits your lifestyle, and makes the best use of the available space working within your budget.

When the design has been finalised, you'll be invited to your local branch, where the planner will present the design, explaining the details and cost estimate.

Once you've approved the plans and estimate, we'll order your kitchen and get everything moving. You'll need to pay a 20% non refundable deposit. The balance will be payable 2 weeks before the delivery day.

Points to consider at this stage

- Confirm that the plan includes everything that you want.
- Make sure you fully understand the plans and the costing on the estimate.

3 Install

Once the plans have been approved and the kitchen is ordered, our experienced fitter will arrange a pre-site visit to reconfirm the plans, ensuring water, gas and electricity supplies do not need moving.

Our qualified installers (all iKBBi registered) will arrive to carry out all the work involved from removing your old kitchen, to installing the new furniture and connecting appliances. All gas work is carried out by Gas Safe Register installers while all electrical work meets the latest Institute of Electrical Engineers standards and complies to current building regulations.

Points to consider at this stage

- Kitchen units will typically be delivered a few days before installation which means you have to store them for a short period before we fit them.
- Your kitchen working area may be unusable for a time, and there will be dust.
- It may be necessary to disconnect services such as gas, water and electricity.

4 Enjoy

After all work has been completed we will visit your home to check that you are happy with your new kitchen.

Sit back and enjoy your new kitchen. For your peace of mind, all our kitchen doors are guaranteed for 10 years.

Expert on Hand

Our ranges

First collection

Brings together the great design and quality you would expect from John Lewis at an extremely affordable price. All units delivered fully assembled for simple installation.

House by John Lewis

Our new House by John Lewis kitchen is simply modern, affordable and practical. Bringing together simplicity and beautiful finishes, it has clever storage ideas that make the most of every inch of space.

Continental collection

The John Lewis Continental Collection brings elegant design and chic styling to your kitchen by allowing you to mix and match with varying door colours textures and finishes.

County collection

John Lewis County Collection combines classic looks with quality construction and exceptional attention to detail. Subtle colour ranges enable to express your own style.

Classic collection

John Lewis Classic in-frame collection offers a traditional shaker, or classic-with-a-twist style in natural oak or one of 25 unique colours. It also comes with a variety of hand finished individual feature pieces including dressers, pantry cabinets and decorative island units.

City matt	8
City	10
City line	12
Horizon	14
Skyline	16
Country	18
Country farmhouse	20
Country painted	22
Capital	24
Doors and handles	26

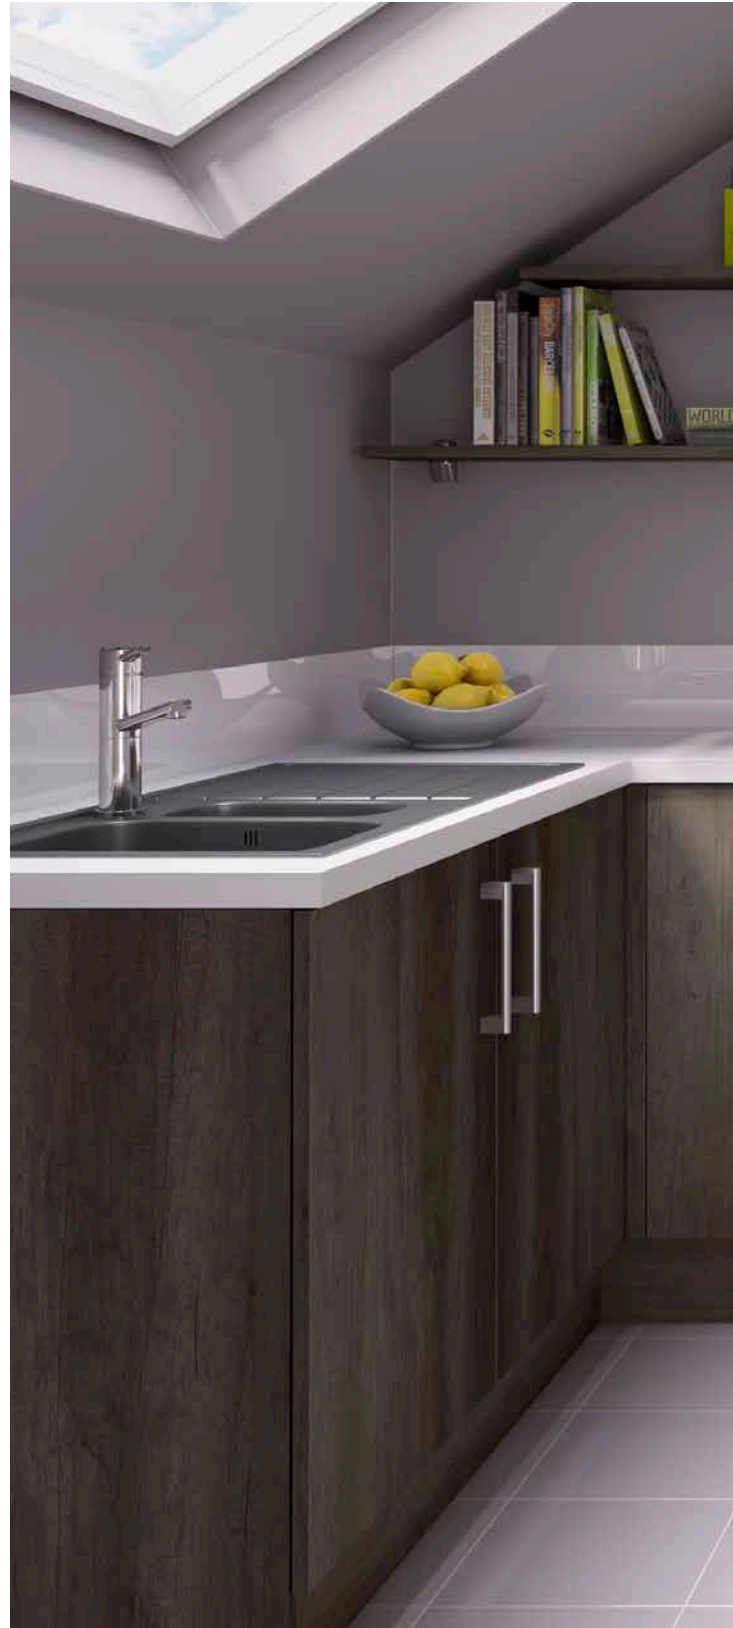

City – matt white

The finish of this kitchen is tactile and soft to the touch. Use similar feeling materials to the worktop for a subtle effect, or contrasting for a striking look.

City – weathered oak and gloss white

Mixing finishes gives a unique and contemporary feel. Open shelving makes the most of every inch of an awkward space.

City – line oyster and line moss

Smooth finishes combined with textured woodgrain effect.

Horizon grey.

Horizon – dakar gloss

Horizon has the effect of a glass edged door, giving a sleek contemporary feel.

Skyline gloss cashmere bi-fold wall unit.

Skyline – painted matt anthracite and dove

Ultra sleek, this streamlined handleless kitchen makes a real style statement.

Country – blonde oak

The Country range has shaker style doors which can be given a traditional or modern look by the choice of handles.

Country Ivory dresser unit.

Country farmhouse — ivory

The tongue and groove detail on these doors gives the benefits of an easily maintained coated door to a traditional country kitchen.

Country painted — cloud and snow

Colour combinations make a statement, but solid colour gives a more subtle effect. Shaker style is highlighted using a matt finish paint.

Country painted dove dresser.

Capital oak

Veneered oak door frame and centre panel gives this kitchen a timeless quality. Choice of handles and a contrasting worktop can give a contemporary twist.

Doors

- 1 Solid Wood**
Timeless and durable. Some doors have solid wood frames with a veneer centre panel. The finish can be oiled, stained or painted.
- 2 Wood Veneer**
Allows for a better matching of strong-grained woods and gives a real wood finish. The finish can be oiled, stained or painted. The MDF base is resistant to warping through heat and moisture exposure.
- 3 Lacquered MDF**
Sprayed onto an MDF base giving a high-shine gloss, silk or matt finish. Lacquer is protective and long lasting. Stability provided through door construction.
- 4 Painted MDF**
Gives a subtle semi-matt finish with a robust structure.
- 5 Laminated Chipboard or MDF**
Applied to an MDF or chipboard base, lamination offers solid colour, reproductions of wood or different textures. Can be gloss, silk or matt finish. Composition of the doors gives resistance to warping and cracking.
- 6 PVC Wrapped**
Vinyl wrap on chipboard or MDF base, it offers a robust door at an economical price.

continental

The John Lewis Continental Collection brings colourful exuberance and elegant design to your kitchen. It features a variety of different door finishes in a range of fashionable silks and gloss colours, matt and gloss wood effects, as well as veneered doors in natural oak and painted finishes which can be mixed and matched. All doors can be complemented by cabinets in a choice of 17 coloured or woodgrain finishes. Curved units add a softer feel, and a wider choice of handle styling lets you individualise your kitchen: handleless doors provide sleek minimalism while the inset aluminium handles offer a chic, contemporary look.

Lucia	38
Felisa	44
Savina	48
Doors and handles	52

Lucia – malmo light

The versatility of this range creates very varied looks depending how the mixture of finishes is selected.

Low level living room furniture.

Lucia – graphite oak veneer and white gloss

Low level units combined with curved corner units deliver a very sleek modernistic looking range perfect for open plan living.

Lucia – malmo dark and drift grained effect

The detailed wood texture on this range combines with contemporary design.

Felisa – terra gloss doors with cotton and malted oak painted veneer

Using a combination of texture, and plain, matt and gloss units, this handleless range allows you to showcase your individual style.

Full glass feature doors with bronze glass and integrated handle.

Felisa handle detail.

Felisa – pergamon with coco bolo gloss

Cool plains, and feature woods with a gloss finish
delivers a very contemporary look.

Savina – earth, dove and weathered oak veneer

The textured matt veneer door used with curved corner units in this 'J' handle kitchen gives a modernistic feel. Gloss stainless steel effect plinth and worktop finishes bring a silk finish .

Savina – white painted matt and stained white oak veneer

The 'J' handle of Savina displays beautiful clean and light effects on the textured matt finish doors.

Savina handle detail.

country

John Lewis kitchens combine classic and contemporary looks, quality construction and exceptional attention to detail.

The County Collection has an array of door finishes from affordable saponetta-styled Rimini to the classic beauty of painted wood featured in Leckford, helping you create the perfect kitchen for your budget.

A choice of 17 internal cabinet finishes is available in the County Collection, to make your kitchens truly unique.

Rimini	56
Camborne	58
Vermont	60
Richmond	62
Leckford	64
Doors and handles	66

Rimini – natural oak

Rounded edges and a smooth woodgrain effect finish give a warm retro feel.

Camborne – spring white

A classic style yet extremely adaptable range to maximise every inch of space. Mixing complimentary colours of this soft matt range can give a country style feel.

Sink unit with aluminium drip tray.

Vermont – ivory

This door style delivers a luxurious, silk smooth-to-the-touch feel. Curved units add style and interest and enable easy access to contents.

Richmond – light oak

Solid wood gives a timeless homely feel to this style. The light oak finished with dark worktops and modern handles can update to give a contemporary twist.

Leckford – natural oak with painted sky and linen

Recreate the feel of a hand-painted kitchen, combining natural and delicate country shades.

Countertop pantry.

classic

Our Classic Collection brings you all you'd expect from a John Lewis kitchen, in beautiful natural oak or any of 25 colours.

You can achieve a number of looks, from the most contemporary to a grand period style, with a solid in-frame construction. The range also comes with a variety of hand finished individual feature pieces including dressers, pantry cabinets and decorative island units.

Windsor	70
Kensington	76
Doors and handles	78

Windsor — painted charcoal and barley

In-frame styling and solid wood doors give a timeless quality to this range.

Belfast sink.

Open base unit with spice drawer.

Windsor – natural oak with painted cotton and thistle

Traditional styling can take adventurous colour schemes to add individuality to this range.

Windsor — painted cotton

Simple colour shows off a decorative splashback or worktop.

Kensington – painted in midnight and denim

The clean lines and curved end-detailling of Kensington enable you to play with colour to develop your own unique kitchen. Solid wood and in frame enhance the timeless quality.

Lighting

Create atmosphere with lighting in your kitchen. Use functional lighting under cabinets, or create stunning effects with over cabinet and plinth lighting. LED lights are extremely energy efficient giving 2.5 watts per light.

Over-cabinet lighting

A general mood light to highlight a row of cabinets or appliances for example. Great for improving ambiance in dark corners or to break up long runs of cupboards.

In-cabinet lights

In-cabinet lights showcase your special glass or ceramic treasures.

Under-cabinet

These lights take many forms, and can be used to improve light in functional areas for food preparation

Plinth lights

For a real 'wow' in your kitchen. These can give the effect of floating cabinets. Great for entertaining areas

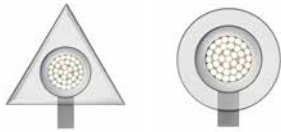

Over cabinet lighting

These fit at an angle on top of cabinets. 12 LEDs. Chrome finish.

Pack of 2: H60 x W60mm 807 31045 £79
H60 x W185mm 807 31043 £110

Under cabinet lighting

Angled under cabinets, these lights throw the light forward. 36 LEDs. Glass and chrome.

H45 x W150 x D150mm
H 45 x Diam 100mm
Pack of 2: 807 31037 £99
80731038 £99

Downlighters giving cool, warm or diffused light. Can be inset or surface mounted 24 LEDs. Brushed stainless steel

Diam 57mm
Pack of 2: 807 31003 £37
807 31004 £37
807 31050 £40

Downlighters giving diffused light. 16 LEDs. Plastic finish

W80 x D80mm
Pack of 2: 807 31042 £59
807 31060 £35

Shaped downlighters. Square chrome – 9 LEDs
Triangle Brushed steel – 36 LEDs

W80 x D89
Pack of 2: 807 31026 £75
807 31027 £99

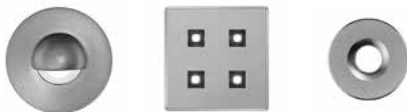

LED Tube Lights
222mm long 3 watts 807 31062 £15
525mm long 8.4 watts 807 31063 £25

Showcase a few favourite pieces.

H50 x W600 x D300 mm 807 32017 £69
H50 x W900 x D300 mm 807 33210 £89

Responsible sourcing

We're committed to bringing you quality products, while reducing our impact on the environment. That means knowing where our materials come from, minimising our packaging and recycling what we can. It's all about finding better ways of doing business, bringing quality to life every day in simple but important ways.

Sustainable timber

We recognise that the production of timber-based products can have an environmental and social impact and that's why we've developed our timber policy. It makes it clear to our suppliers the role we expect them to play in supporting sustainable forestry practices and in curbing the worldwide trade in illegal timber.

We aim to have full traceability on all of our timber, to ensure it's legally compliant and where possible, independently certified as being from a responsibly managed source.

To make sure this happens, we only work with suppliers who share our values, and put sustainable timber sourcing at the heart of their business too.

Packaging

Packaging plays an important role in protecting your kitchen while on its way to you but we're also mindful of creating unnecessary waste. We're committed to minimising the amount of packaging we use whenever we can, and exploring the use of new, more environmentally responsible materials.

Recycling

By law, we're required to enable you to recycle up to 80% of product packaging and to do this we contribute up to £1 million a year towards supporting recycling compliance schemes that invest in local recycling centres across the country.

We also actively support waste reduction and recycling within our business, for our customers and among our suppliers. In 2013 we saved 95% of our operational waste from landfill, with three-quarters of that going on to be recycled. But we're not stopping there, we've set ourselves a target of diverting 98% of our waste from landfill by the end of 2015.

Our suppliers

We've been working with like-minded kitchen suppliers for well over a decade. We believe the main reason these relationships are so successful is that these suppliers share the same passion for bringing quality to life as we do.

We expect them to obey the law, to respect the rights, interests and wellbeing of their employees, their communities and the environment, whether in the UK or further afield.

Committed to finding new and better ways to do business, we actively encourage our suppliers to do the same in relation to sustainability and responsible sourcing.

Made in UK

All our fitted kitchens are made in the UK. We work with the leading UK fitted kitchen manufacturers who use state of the art technology and classic craftsmanship to provide a wide range of quality complete kitchens.

Some materials used in our worktops may come from overseas, but all are hand crafted by skilled British craftsmen.

Conditions of sale

Our conditions of sale have been designed to help ensure the planning and fitting of your new kitchen goes as smoothly as possible.

Every kitchen is different

- Each John Lewis kitchen is made to order.
- The illustrations, drawings and dimensions in our catalogues are intended as a guide only.
- When your estimate is produced, it is your responsibility to ensure that the information and specifications it contains meet your requirements.

Natural materials

- Furniture that uses wood components or wood veneers will display natural grain and colour characteristics that may vary from what is featured in showroom displays and photographs. We cannot supply specially matched components.
- Granite and other naturally occurring stone worktops will also display colour variations and may not match shop-floor samples exactly.

Building work

- If you are having any building work carried out as part of your kitchen project, this must be completed before we can undertake a site visit. Any walls to which kitchen units will be fitted need to be in place, plastered and dry.
- New kitchens cannot be installed in a damp or freshly plastered space.

Timescales

- The time needed to plan and install a kitchen varies from home to home. The ordering timescales we provide are a guide only. We will keep you informed of the progress of your kitchen.

Delivery

- Your kitchen units will be delivered direct to your home on the day advised by your local John Lewis shop. This may involve you having to store them for a day or so until installation commences.
- Units should be stored in a place free from damp.

- It is usual for your appliances, accessories and worktops to be delivered separately during the week of your kitchen installation.

Preparing for installation

- Fitting a kitchen is a building project which will disrupt your routine. The kitchen working area may be unusable for a time. It may be necessary to disconnect services such as gas, water and electricity. Fitting a kitchen creates dust, but our installers will keep your kitchen and agreed working area as tidy as possible.

Installation

- The work will start with the removal of your existing kitchen. We can also dispose of your old kitchen.
- Certain tasks or requirements may only become apparent when your existing furniture and appliances have been removed. Where this is the case, we will let you know what the cost of any necessary work will be.

Doing the job properly

- Installing a kitchen is a complex task. While we try to finish your kitchen during the initial installation period, remedial work may be required. Our installer may make several return visits to your home in order to complete the job.

Specialist worktops

- To ensure a perfect fit, we measure up for specialist worktops such as granite, Corian, quartz, and glass after the main kitchen is fitted.
- Lead times for specialist worktops can range from two to eight weeks depending on the material chosen. During this time we will install temporary worktops to the sink and cooking area only.
- Once the specialist worktops have been manufactured, we will return to fit them.

Payment

- Once you've agreed our estimate, you'll need to pay a 20%, non-refundable deposit. The balance will be payable two weeks before the delivery day.
- We accept payment by Partnership Card, John Lewis or Waitrose account cards, Switch, Delta, Mastercard, Visa or cash.
- Prices are valid for 28 days from the date shown on your estimate.

Interest free credit

To help make large purchases more affordable, we now offer Interest Free Credit when you spend £1,000 or more on selected products. Payment can be spread over 1 or 2 years, depending on the amount. We require a minimum deposit of 10% on furniture or 20% on fitted bedrooms, bathrooms and kitchens. 0% APR representative (subject to status; terms and conditions apply). You need to arrange the payment plan at the John Lewis shop that will be organising delivery of your goods. Credit provided by Hitachi Capital (UK) Plc, trading as Hitachi Capital Consumer Finance. From 1 April 2014, authorised and regulated by the Financial Conduct Authority.

If you have any further queries about our service or require a full set of our conditions of sale, please contact your local John Lewis shop.

Colours and designs

- Due to photographic and printing processes some colours may not be a true representation of the product. Please see sample for actual colour. It may be necessary for us to change designs and specifications without prior notice.

10 year guarantee

- All John Lewis fitted kitchen furniture shown in this brochure comes with a 10 year guarantee. For a full copy of our guarantee, please contact your local John Lewis shop.
