JOHN LEWIS
& PARTNERS

WHEN YOU'RE PART OF IT,
YOU PUT YOUR HEART INTO IT

AT JOHN LEWIS & PARTNERS, WE'RE MORE THAN
EMPLOYEES - **WE'RE OWNERS.**

THAT'S WHY WE'RE ALL CALLED PARTNERS.

AND THAT'S WHY WE ALL GO ABOVE AND BEYOND
TO OFFER QUALITY PRODUCTS AND OUTSTANDING
SERVICE TO THE PEOPLE WHO MATTER MOST –
YOU, OUR CUSTOMERS.

BECAUSE FOR US, IT'S PERSONAL

WELCOME

A new kitchen is one of the most exciting projects any
of us take on. It can define what's really important to us
in our homes.

You may want a kitchen that brings everyone together,
or one that gives a sense of wellbeing and calm. A kitchen
can be a bold and creative statement, or quietly make the
most of space, giving flexibility and flow.

The following pages bring to life several of our kitchens,
to help inspire you. Practical, need-to-know details for all
our ranges appear towards the back of this book.

When you're ready to get started, our Partners will be here
to help. We can take care of everything from designing to
fitting, from the big idea to the finishing touches.

OUR SERVICE

CREATING YOUR DREAM KITCHEN

1

INSPIRATION

To help you imagine your ideal kitchen, look out for designs you like on Pinterest, in magazines or places you visit. Our shops have kitchens to explore and you can also use our visualiser tool to experiment with ideas for your space. Just go to: johnlewis.com/fittedkitchens

4

POST-VISIT

Once you've had a chance to think about our design, you can talk to your planner again. They'll answer any questions, discuss any changes and make sure you're completely happy. A kitchen is a big investment; we know how important it is to get everything just right.

7

INSTALLATION

If you are having your kitchen installed, your dedicated Partner will organise both the removal of your old kitchen and the fitting of your new one. This will include installing all appliances and accessories, as well as taking away all rubbish. Our installers are highly qualified and all our workmanship comes with a 2-year guarantee.

2

IN-STORE CONSULTATION

This is a two hour appointment with one of our Partners. We'll talk through your ideas, suggest design options to fit your space, how you want your kitchen to work and the budget you're working with. We'll also show you materials and finishes, and discuss details such as lighting and appliances.

5

GO AHEAD

As soon as you place your order, we'll assign a dedicated Partner to manage your project from start to finish. They will look after you every step of the way until your kitchen is up and running.

8

WHEN THE WORK IS DONE

We will still be on hand to sort out any last details or answer any questions. You can also call us on 0345 6080850.

3

IN-HOME PLANNING

One of our specialist planners will survey and measure your space, then create a design that brings your ideas to life - as well as making sure all the practical details are fully thought-through. This typically takes two to three hours. There's a £50 planning fee, fully redeemable if you go ahead with us.

6

DELIVERY

We'll arrange for your new kitchen units to be delivered a few days before installation. This can be as quick as four to six weeks from ordering. We always do our best to group things together and coordinate delivery times. However, it is usual for some items to arrive separately.

9

LOOKING AHEAD

All our kitchens come with a 10-year guarantee included. Each and every one is made in the UK to the highest standards and crafted to last. So you can look forward to thousands of dinners, special times, quiet moments or family get-togethers to come.

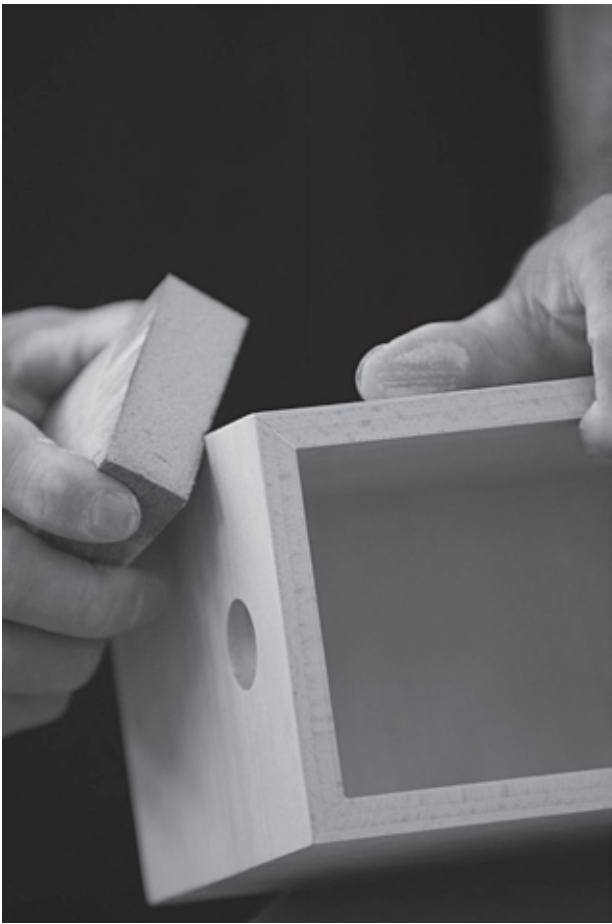

"Having a new kitchen fitted is a big commitment. My job is to make sure the whole process goes as smoothly as possible and look after customers at every step. It takes teamwork and a lot of behind-the-scenes organising... and it's great when everything comes together. Seeing pictures of the end result is just the best."

HARRIET PHIPPS

Partner & Fitted Kitchen Case Manager

BEAUTIFULLY UNIQUE

A John Lewis & Partners kitchen is made to order and hand-built based on your unique design. No two homes are exactly the same, so neither are our kitchens.

TAILORED TO YOUR SPACE

From making the most of an awkward corner, to extending a worktop to create a dining table: from building a statement window seat to crafting a stand-alone larder, we'll design and build a kitchen that works brilliantly for you.

CRAFTED TO LAST

Our kitchens are hand-built in the UK to the highest standards of workmanship, and all materials are carefully sourced. As members of the British Institute of Kitchen, Bedroom and Bathroom Installation (BIKBBI) all our installers are fully accredited and insured.

YOUR PERFECT DESIGN PARTNER

At John Lewis & Partners, we're all co-owners of our business, so taking responsibility for doing the best for you - our customers – really matters to us.

Our priority is to inspire you with a beautiful and practical design, offer knowledgeable, impartial advice on every detail of your new kitchen and to make sure all our products and services are of the highest quality possible.

“I think it’s really important to love your kitchen. So my job is to balance beauty with function...right down to every detail.”

LUCY REES
Partner & Assistant Buyer, Fitted Furniture

WHICH? BEST BUY

We're proud of the quality of our kitchens. So we're really pleased that all our glue and dowel kitchens have been awarded a Which? Best Buy endorsement.

This means Which? have assessed the overall quality of construction as well as: sturdiness of shelves, smooth opening of doors and drawers and robustness of hinges over time.

88 YEARS OF KITCHEN KNOW-HOW

We've been selling kitchens since 1932 and bring all our experience and skills to every design we create.

Our ranges are always evolving, to reflect changing styles and the way we use our homes, and we regularly re-examine every detail for quality, purpose, relevance and beauty.

From planning to installing, we make sure every element works together effortlessly and efficiently.

BE INSPIRED

THE GALLERY

In the following pages, we showcase a selection of our fitted kitchens to give you a feel for the different styles and designs that can be created. Our full ranges appear on pages 66 to 115

Visit one of our shops, and our Partners will talk you through the ranges and how they can best work for your space. Then we'll help you create a kitchen you'll love to live with, for many years to come.

Shown in cashmere with quartz jupiter and solid oak worktops.

Carradale's smooth door finish is a more modern take on the shaker look, ideal for creating this light and airy scheme. Lots of open storage means everything is easy to find and tidy away. Basket drawers are ideal for storing fresh vegetables, while minimal overhead cabinets help create a feeling of space. Natural textures combine with muted colours to create a serene and welcoming retreat from the outside world.

A SENSE OF WELLBEING

CARRADALE

Understated shaker styling and well-considered details create a calm aesthetic that sits beautifully in any home.

Baskets add texture and are a handy way to store away smaller items.

Open feature units on an island add visual interest.

Tall integrated fridge freezer cabinets are practical and give a seamless look.

Stay organised with integrated compartment storage in drawers.

BOLD AND SOPHISTICATED

KENSINGTON

Kensington's exceptional craftsmanship and design details make a statement that's both modern and practical. Woodgrain slab doors are set within a traditional beaded frame, creating a strong and solid aesthetic. Doors are finished with decorative butt hinges in stainless steel to complement the look.

Shown in dove with Minerva® carrara white worktops.

Open shelves in a run of cabinets give practical storage and create a display space.

Contrasting handles on cupboards and drawers accentuate the bespoke look.

AT THE HEART OF YOUR HOME

LECKFORD

Leckford's warm colours combine with traditional materials to create a space that's welcoming and practical. Details such as a range cooker or Belfast sink work really well with the farmhouse feel, as do wood and wicker storage boxes and baskets. Open display cabinets showcase favourite accessories and are easy to access, while a tall larder cabinet is a beautiful piece of furniture in its own right and offers heaps of storage space.

Hand-finished Leckford
brings the feel of a farmhouse
kitchen to your home.

Combining woodgrain doors with brass handles adds character.

Beautifully designed and crafted, tall larder cabinets add a focal point and useful storage.

A WARM WELCOME

BURFORD

By bringing together monochrome tones with chrome detailing, Burford creates a stylish cooking and entertaining space that's full of character. The traditional shaker-style doors are enhanced with a chamfered edge on the inside frame and you can mix and match door colours to personalise the look. Design details, such as integrated wine racks and sink cabinet storage, give flexibility and make the most of space.

Shown in graphite and cotton with quartz ceres worktops.

Above top: Clever sink storage with recycling makes cleaning up easier.

Above: Wooden plate drawers with peg dividers give secure storage.

Above top: Tall utility cabinets keep all the household bits and pieces neatly stored.

Above: Add an integrated wine rack to keep your favourite bottles to hand.

FLEXIBLE LIVING

ALESSA

This contemporary, multi-tasking living space is designed to be airy and super-efficient.

For many homes, space is precious and one room has to do many things. Using Alessa, these pages show how to bring together kitchen, living room, laundry and extra storage to create a design that's practical and inspirational.

The kitchen zone is brilliantly functional, yet never dominates. Doing away with overhead cabinets helps, and also creates an ideal working from home environment.

By matching the colour of large floor-to-ceiling wall cabinets to the walls, storage and laundry areas appear hidden, creating a clean, uncluttered feel.

Shown in blossom, with ceramica
worktop in calacatta fine

Alessa gives the opportunity to create
a kitchen that functions beautifully and
is a unique entertaining space.

Doors to the laundry zone tuck away neatly, giving easy access to a space that's brilliantly organised and has everything in one place.

Here, the doors for the cleverly stacked laundry area have been closed, creating an airy and relaxed living space.

Savina gives you a fluid space that's relaxed, practical and efficient. Pull-out mechanisms give much more storage space that's easy to get at, while robust soft-close cabinets and drawers are perfect for hard-working family life. Integrated J-pull handles create smooth lines, while building cupboards around free-standing appliances helps maintain an uncluttered look. A peninsula creates a flexible space for cooking, eating or catching up.

MODERN FAMILY

SAVINA

Minimalist yet warm, Savina has a Scandinavian feel that's ideally suited to busy family living.

Shown in matt, light grey with quartz worktop in ceres.

Integrated appliances give a clean, seamless look.

Flexible pop-up sockets are really useful. When hidden away, they keep worktops clear and uncluttered.

CONTEMPORARY CALM

MODENA

Modena's linear look creates a modern kitchen that's an oasis of calm. Handleless cabinets create smooth uninterrupted runs, while staggered wall cabinets give extra height in work areas. Every detail adds functionality while keeping the relaxed, fuss-free feel. Textured door finishes in mineral silver and anthracite have been mixed for added depth and interest.

Clean and simple lines give Modena a minimalist look and a relaxed sense of space.

Shown in mineral silver and mineral anthracite with black oak worktops.

Bi-fold doors allow you to keep them open while you work.

MODENA

Our kitchens can enhance and complement any architectural style and here we show how Modena makes the most of a mid-century design aesthetic. Runs of tall and low level cabinetry create a bold, clean canvas, while contrasting colours add light and shade. The perfect space for showcasing statement design pieces, Modena lets you express your individuality and create a real 'wow' factor.

The range brings you our widest choice of painted door colours and finishes. You can mix matt, gloss and textured doors however you want, and all come with a choice of handles, handleless and touch options.

CONTEMPORARY CREATIVITY

Shown in white gloss, saffron and dark walnut with a quartz worktop in white

Modena's minimalist lines bring a new modernity and sense of space to this mid-century home.

A wall of built-in units allows ovens to be installed at eye-level – much easier for lifting heavy casseroles and roasts.

Black taps add a bold, contrasting touch.

Create an effortless, welcoming space with our Salerno kitchen. Innovative design details such as sliding doors and recessed open shelving create a modern feel. Ideal for relaxed gatherings and easy entertaining.

OPEN FOR ENTERTAINING

SALERNO

Shown in super matt white with copper handleless trim and plinth and laminate ice white worktops.

A sliding door system is a clever alternative to a splashback or tiling and gives extra storage.

Salerno gives the opportunity to create a kitchen that functions beautifully and is a unique entertaining space.

An island with an integrated downdraft cooker hood is both stylish and functional.

Highgrove combines shaker design with the freedom to create a flexible space where cooking, eating and relaxing sit effortlessly together. The well-crafted solid doors sit snugly within a robust frame, creating a traditional look and feel.

HOME, FLEXIBLE HOME

HIGHGROVE

A muted palette and mix of handle styles create a relaxed dynamic of light and shade, to quietly contrast different functions and areas.

Shown in light grey and meadow green with quartz vesta worktops.

Overhead lighting helps distinguish task areas from relaxing spaces, while an uninterrupted sight-line between the two gives a sociable, spacious feel.

Open shelving gives a creative space for showcasing beloved possessions and decorative pieces, as well as keeping everyday items to hand.

"Our team work very closely together... including with Partners in other departments. Often customers want help with furnishings, flooring, accessories etc. We make sure everything joins up smoothly."

OUR KITCHENS

RANGE GUIDE

THE DETAILS THAT MAKE THE DIFFERENCE

CABINETRY

All our cabinets are made in the UK and arrive ready-assembled for easy installation. We offer different depths and widths of cabinets as well as feature and opening options. Our cabinetry is available in two construction types, both with solid tops for extra rigidity.

CAM AND DOWEL

- A simple yet strong construction
- Similar to flat-pack
- The most economical option, used for our House and Hereford ranges
- Can often be delivered sooner

DOVETAIL

- A high-quality joint that gives drawers a beautiful crafted finish
- Come as standard on our in-frame kitchens
- Available as an option to our classic kitchens

GLUE AND DOWEL

- Even sturdier than cam and dowel
- Joints are glued for extra stability and strength

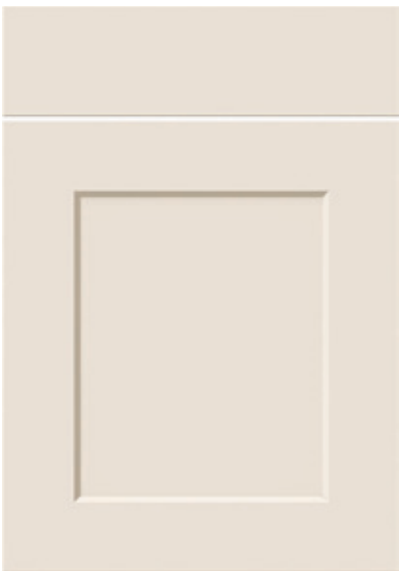

Here we explain the ‘nuts and bolts’ of different options available for your kitchen, so you can work out which benefits are important to you, suit your style and fit your budget.

DOOR STYLES

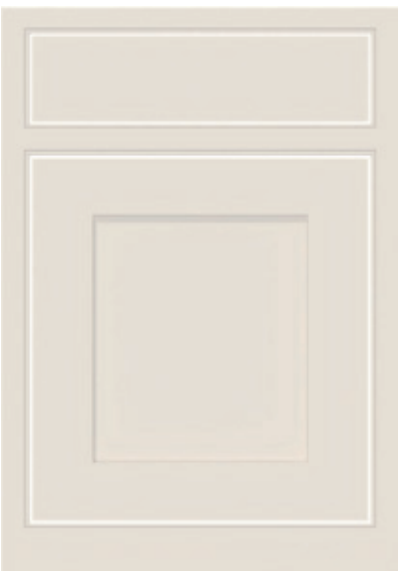

SLAB

- Solid and flat
- Creates a modern, sleek look
- Available in all our modern kitchen designs
- Adding an integrated J-Pull or a grip rail to a slab door gives a handleless look

SHAKER

- Recessed panels reflect the thoughtful craftsmanship and simple functionality of traditional shaker design
- Can be a smooth one-piece or a more traditional five-piece design
- Some designs have bevelled frames

IN-FRAME

- Doors sit within a frame that is attached to the front of the cabinet
- Versatile, can be used for a variety of design styles

DOOR OPENINGS

All our doors have soft-close hinges that open to 110 degrees.

Handleless designs give a streamlined and modern look. J-pull doors give the impression of a handleless look at a more affordable price. Handleless, touch and J-pull are only available in our contemporary kitchens.

Last but not least, you can choose from 85 handles to complement your design.

TOUCH

- Open and close with a gentle push
- A minimalist design aesthetic, for a seamless look
- Doors sit flush against the worktops

HANDLELESS

- A space-saving alternative to handles, especially in narrow kitchens
- Modern and sleek
- Work well with under-countertop lighting strips
- Grip rails are available in a choice of colours to complement your design

HANDLES

- A key design touch that lets you create a unique look
- Wrap-over handles give a sleek, uncluttered look
- Can match with other accessories or furniture

J-PULL

- The handle is integrated into the top of the door
- Creates a handleless look

BUILDING YOUR LOOK

We'll help you think through all the elements of your new kitchen and make the most of your space. The right details are important, as they can give your kitchen a distinctive look, add striking contrasts and help utilise every nook and corner.

SIDE PANELS

- Allow you to match the end of a kitchen run to your door finish
- Can be decorative, such as tongue and groove
- Create a seamless finish
- Open panels at the end of a run give easy access to kitchen essentials (shown above)

CORNICES

- Add to the top or bottom of wall units to give a decorative finish
- Removing cornices from some classic kitchens creates a more modern appearance
- Can be contrasting or matching

PLINTHS

- Run along the floor below the units
- Cabinet colour-matching plinths come as standard
- Door matching finishes available as an upgrade

DRAWERS

- Give easier access to kitchen essentials than a standard cabinet. A good example is a pan and plate drawer (shown above)
- Internal dividers keep contents organised and protected
- Under-hob or under-sink drawers are innovative space-makers

CLEANER FOR LONGER

Our Modena range has some unique slab doors. Their clever coating helps reduce fingerprint marks and withstands knocks and scratches, helping your kitchen stay clean and looking like new. Perfect if you're considering a handleless or touch design.

MIX, MATCH,
PERSONALISE

The combination of materials, finishes, work surfaces and door openings you choose can create impact and make your kitchen even more individual.

Think about using two different shades in a shaker or in-frame design, or for a fresh look, mix painted and wood finishes. Having handles on the main run of cabinets, but handleless or touch doors on an island or feature unit works well for any modern design.

Contrasts can also help define different areas within your kitchen, separating a cooking area from an eating area, or blending kitchen and living spaces.

VERSATILE BY DESIGN

Traditional ranges, such as Highgrove, Leckford, Burford and Carradale give the perfect opportunity to use different combinations of paint colours, which work beautifully.

With our Salerno, Modena, Alessa and Savina ranges you can blend and contrast finishes and materials to create stunning combinations.

Chester is especially adaptable, giving you the freedom to create a beautiful kitchen that's uniquely your own.

Here we show how it can create two distinct looks. The space, cabinetry, layout and colouring are the same. But by changing door styles, worktops, taps, appliances and flooring, the end results are very different.

All of our kitchen ranges can be adapted to reflect different aesthetics, so you can customise your design however you want.

“We create designs that are beautiful but that will also work in a real home... I try to make sure I understand what customers really need, so our kitchens help them live better”

LUCY REES

Partner & Assistant Buyer, Fitted Furniture

CONTEMPORARY STYLING

Shown in forest with brass handleless trim and a minerva worktop in concrete haze

CLASSIC STYLING

Shown in forest with a character oak white oiled wooden worktop

Different plinth colours create contrasting looks. Match to cabinetry to give a feeling of substance and solidity, or use a light colour to give the island a sense of floating.

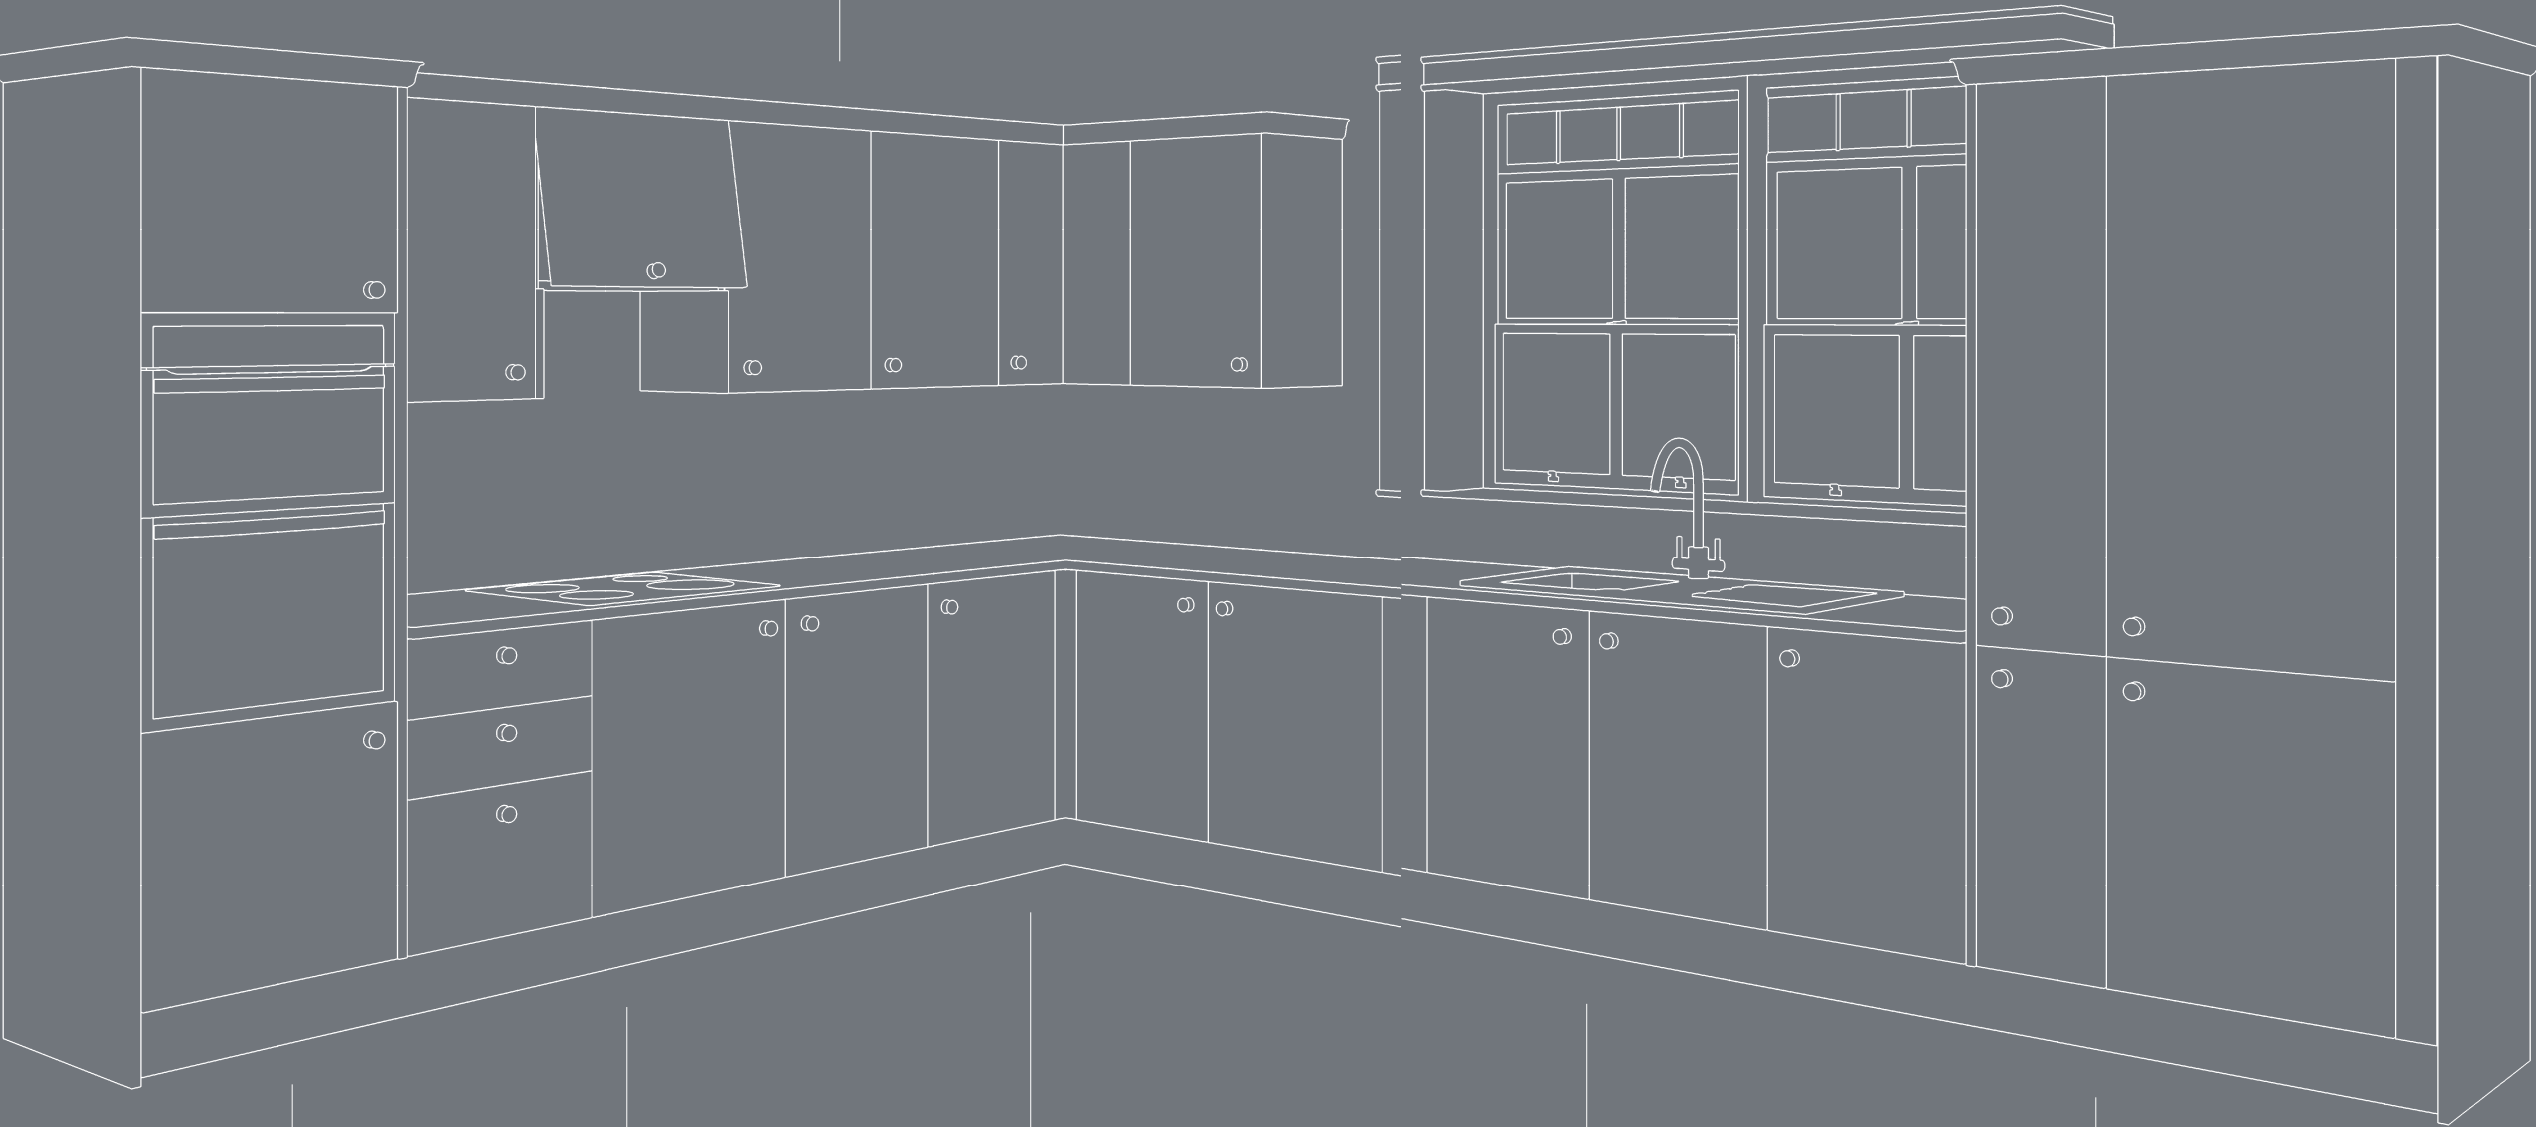

Using a matching colour on walls and cabinets creates a sophisticated space, where all elements work together.

KITCHEN PRICE GUIDE

- 500mm Wall unit x 4
- 620mm Corner wall unit
- 600mm Integrated cooker hood door

We believe in honest, transparent pricing with no surprises. Over the following pages, we've calculated how much it would cost to create this example kitchen in each range, so it's easy to compare. The price includes everything you might need to have the kitchen up and running, including a laminate worktop, sink, tap and basic installation. We have not included appliances.

Extras - such as internal storage accessories, specialist taps and worktops - will add to the overall price. For each range we have provided a second figure to help you understand how these extras might affect the total cost. We'll work with you to create a design you love, with every detail considered while keeping to your budget.

- 600mm Integrated oven unit

- 500mm Base unit
- 600mm Hob base unit
- 500mm 3 drawer base unit

- 1000mm Corner base unit with shelves
- 500mm Base unit

- 1000mm Sink base unit
- 600mm Integrated dishwasher door
- 500mm Base unit

- 600mm Integrated tall Fridge freezer unit
- 300mm Tall larder unit with shelves

- Plinth in door matching finish x 3

HOUSE

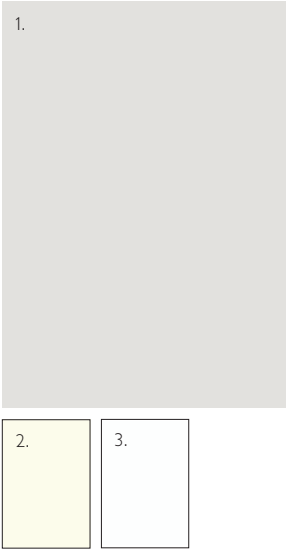

Contemporary and simple, House is our most affordable modern range. The range has white cam and dowel cabinets only and door finishes come in an edited choice. You can choose either handles or integrated J-pull handles.

Shown in light grey with a solid surface worktop in speckle

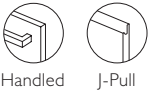

COLOURS

- 1. Matt / Gloss light grey
- 2. Matt / Gloss ivory
- 3. Matt / Gloss white

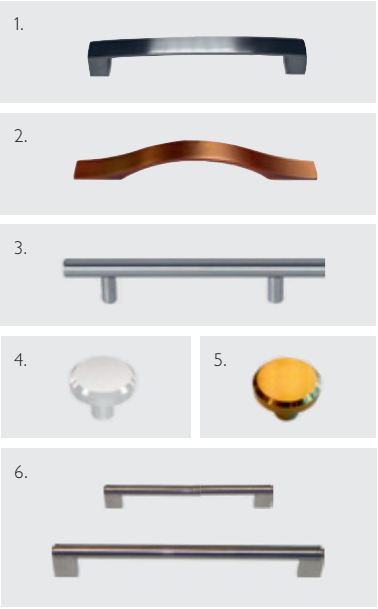

DOOR OPTIONS

HANDLES

- Available handles
- 1. Brushed nickel finish 'D' handle
 - 2. Brushed copper finish handle
 - 3. Stainless steel bar handle
 - 4. Stainless Steel knob
 - 5. Brass knob
 - 6. Stainless steel finish rod bar handle

Kitchen Price Guide

HOUSE

We have calculated how much it would cost to create the example kitchen on page 78 with the House range. The price includes everything you need to have the kitchen up and running including a laminate worktop, sink, tap and basic installation. We have not included appliances.

HANDLED

£6,928

Includes basic installation

J-PULL

£7,561

Includes basic installation

POPULAR ADDITIONS

Extras will add to the overall price. For example if you were to add a pull-out larder, colour matching side panels and a solid surface worktop to a handled kitchen, the total cost would be £10,987

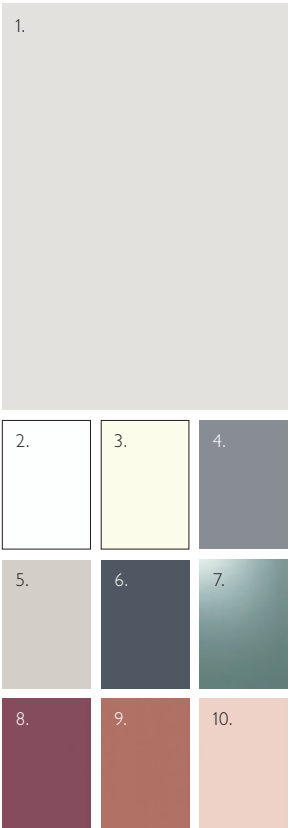

ALESSA

Alessa offers handled, handleless and touch door options, in both gloss and matt finishes. A choice of woodgrain effect doors is also available so you can mix and match finishes in your design.

COLOURS

- 1. Matt / Gloss light grey
- 2. Matt / Gloss white
- 3. Matt / Gloss ivory
- 4. Matt / Gloss dust grey
- 5. Matt / Gloss cashmere
- 6. Matt / Gloss anthracite
- 7. Gloss mint blue
- 8. Matt claret
- 9. Matt terracotta
- 10. Matt blossom

Includes basic installation

POPULAR ADDITIONS

Extras will add to the overall price. For example if you were to add a cantilever carousel, pull-out larder, base unit with internal drawers, pull-out waste bin, colour matching side panels and a quartz worktop the total cost would be £15,809

CHESTER

Chester is our most flexible range yet. The door is a smooth, angular interpretation of shaker-style, purposely designed to fit either a modern or classic kitchen. It's also the only one of our shaker styles that can be used with a handleless or touch design.

Available in 20 matt painted door colours - the same wide palette as for Carradale and Vermont.

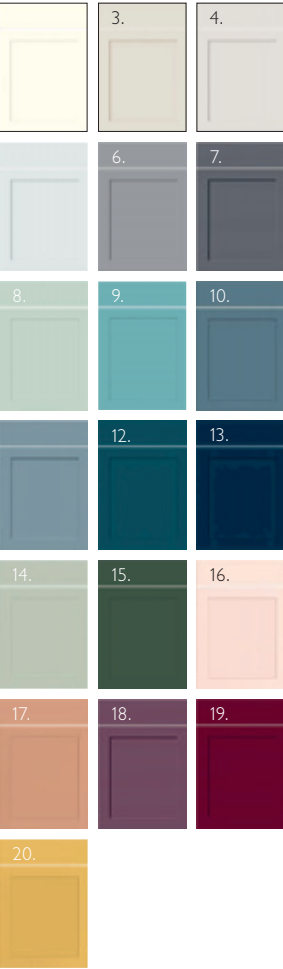

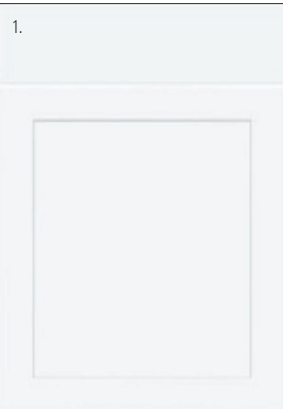

Shown in Forest with a wooden worktop in oak white

COLOURS

- | | |

We have calculated how much it would cost to create the example kitchen on page 78 with the Hereford range. The price includes everything you need to have the kitchen up and running including a laminate worktop, sink, tap and basic installation. We have not included appliances.

HANDLED
£7,967

Includes basic installation

POPULAR ADDITIONS

Extras will add to the overall price. For example if you were to add a pull-out larder, colour matching side panels and a wooden worktop, the total cost would be £11,651

STANTON

Stanton's woodgrain-effect doors are made to a traditional five-piece shaker design, giving you the same look as real timber but at a more affordable price. The classic colour palette ranges from subtle pastel greys to a striking dusk blue.

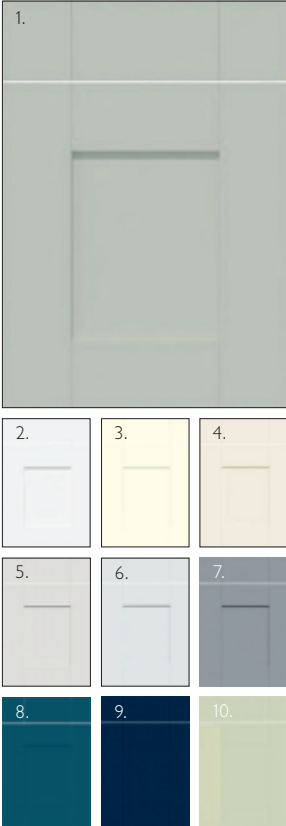

Shown in meadow green with a laminate worktop in mineral anthracite

COLOURS

- 1. Meadow green
- 2. White
- 3. Ivory
- 4. Mussel
- 5. Cashmere
- 6. Light grey

Extras will add to the overall price. For example if you were to add a cantilever carousel, pull-out larder, base unit with internal drawers, pull-out waste bin, colour matching side panels and a wooden worktop the total cost would be £14,759

VERMONT

You can use Vermont's shaker style to create either a classic or more modern look. The smooth painted design has feature joints, creating the impression of a traditional five-piece door but without a woodgrain effect.

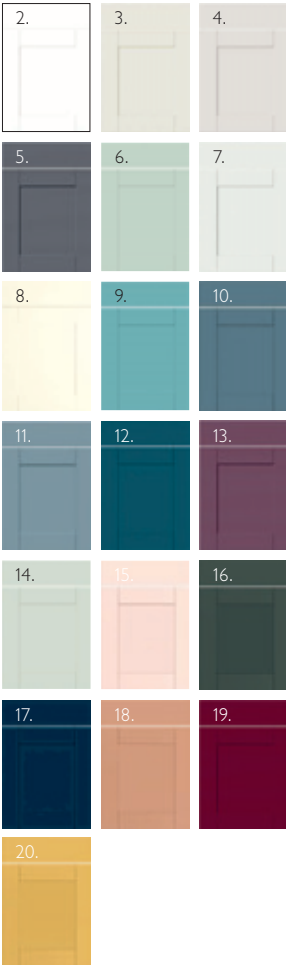

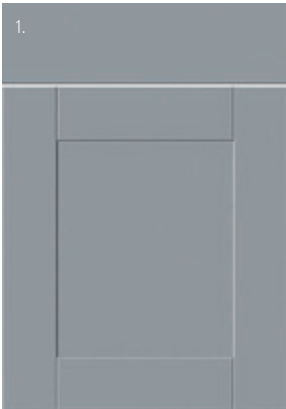

Shown in dust grey with a wooden worktop in oak and shaker shell and "D" handles.

COLOURS

- | | |
|-----------------|------------------|
| 1. Dust grey | 11. Pantry blue |
| 2. White | 12. Dusk blue |

CARRADALE

We have calculated how much it would cost to create the example kitchen on page 78 with the Carradale range. The price includes everything you need to have the kitchen up and running including a laminate worktop, sink, tap and basic installation. We have not included appliances.

HANDLED

£10,649

Includes basic installation

POPULAR ADDITIONS

Extras will add to the overall price. For example if you were to add a cantilever carousel, pull-out larder, base unit with internal drawers, pull-out waste bin, colour matching side panels and a quartz worktop the total cost would be £17,994

YORK

York gives you a look that's similar to our Windsor and Kensington kitchens, but at a more affordable price. The in-frame doors are smooth, rather than woodgrain, which suits a modern aesthetic, and are made from a single piece of material that's foil-wrapped. York is our only range that comes in Azure blue, a striking colour that suits it perfectly.

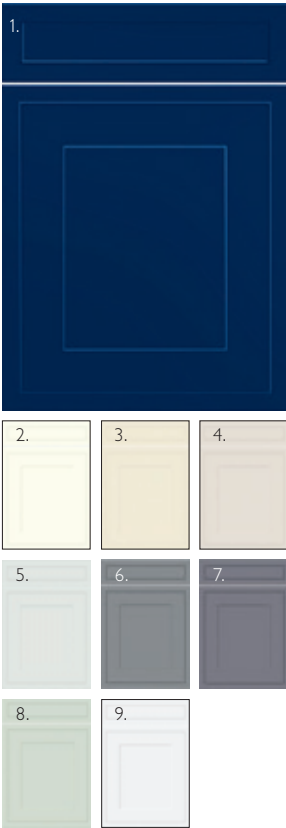

Shown in dust grey and azure blue with a quartz worktop in chalk and pewter finish knob handles.

COLOURS

- 1. Azure blue
- 2. Ivory
- 3. Mussel
- 4. Cashmere
- 5. Light grey
- 6. Dust grey

POPULAR ADDITIONS

Extras will add to the overall price. For example if you were to add a cantilever carousel, pull-out larder, base unit with internal drawers, pull-out waste bin, colour matching side panels and a quartz worktop the total cost would be £17,994

RICHMOND

Richmond is the epitome of a country-style kitchen, with solid oak doors that have been carefully chosen to show the beautiful knots and character of the wood. Traditional glazed units, cast iron or antique-finish handles and subtly distressed edging can be used to complete an authentic farmhouse feel.

Shown in light oak with a granite worktop sapphire and cast iron finish square knob and 'D' handles.

NATURAL

- 1. Light oak

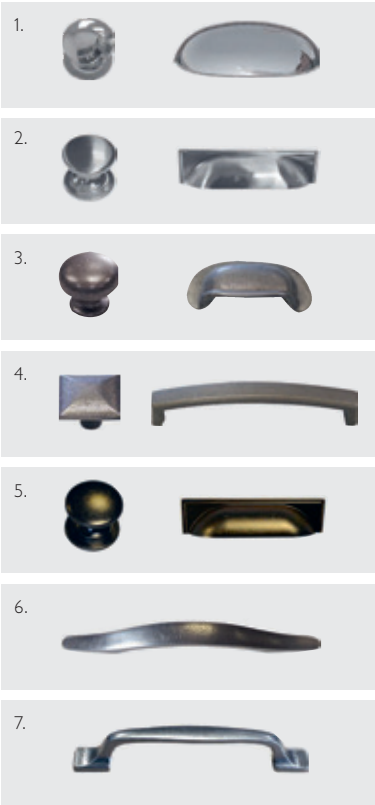

DOOR OPTIONS

BURFORD

We have calculated how much it would cost to create the example kitchen on page 78 with the Burford range. The price includes everything you need to have the kitchen up and running including a laminate worktop, sink, tap and basic installation. We have not included appliances.

HANDLED

£11,610

Includes basic installation

POPULAR ADDITIONS

Extras will add to the overall price. For example if you were to add a cantilever carousel, pull-out larder, base unit with internal drawers, pull-out waste bin, colour matching side panels and a quartz worktop the total cost would be £19,278

LECKFORD

Leckford's traditional hand-finished doors have a straight edge to the centre panel for a more traditional look. (In contrast, Burford's are chamfered.) The solid timber frames are made from ash, painted to show the warmth and detail of the wood's natural grain, while centre panels are made from woodgrain veneer. Available in natural oak or 22 painted colours.

NATURAL

STORAGE SOLUTIONS

Whatever kitchen design you love, choosing clever storage will make the most of every inch of space.

Corner cabinet with cantilever carousel shelves.

Larder cabinet with integrated wine rack.

Slim pull-out basket and towel rail cabinet.

Cabinet with integrated ironing board.

Tall utility cabinet with adjustable shelves.

Under sink pull-out drawer cabinet.

Pull-out waste bins.

Built-in oven cabinet with slim tray drawer.

Tall larder cabinet with drawers.

SINKS AND TAPS

Download our app
to discover more

SINKS

The right sink makes food preparation easier and clearing-up less of a chore.

A single sink is sufficient if you don't do a great deal of washing up. A double sink gives much more flexibility but will require more space. A one and a half bowl sink is often a practical best of both worlds option.

CERAMIC

Ceramic sinks are made of cast iron coated in kiln-fired porcelain enamel, which is extremely hard and durable.

STAINLESS STEEL

Tough and easy to clean. All our stainless sinks are made from premium grade 18/10 nickel steel.

COMPOSITE GRANITE

Sturdy and low maintenance, our composite sinks are heat, scratch and stain-resistant. Those with a high granite content are especially durable.

TAPS

Taps are one of the most-used items in the kitchen, so it's worth considering what features are important to you.

A single mixer tap tends to look most effective in a contemporary kitchen while separate hot and cold taps often suit a more traditional kitchen style. Matching taps to cabinet handles creates a coordinated look.

MIXER

Mixes hot and cold water to create the ideal temperature.

SPRAY

Featuring a spout connected to a hose that can be pulled out to where you need the water flow. Good for rinsing fresh foods and filling large pans. Makes it easier to clean the sink too.

MULTIPURPOSE

A hot and cold tap that also provides instant boiling water. Ideal for an instant cup of tea and for speeding up cooking vegetables and rice. Some also include a filtered water option.

THINGS TO CONSIDER

WORKTOPS

RANGE GUIDE

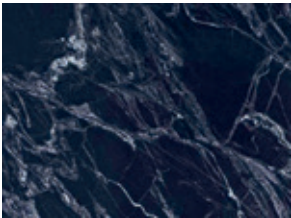

Worktops can completely change the look and feel of your kitchen, to create a sense of space, a dramatic contrast or add warmth.

We'll advise on what will look beautiful with the cabinetry you've chosen, as well as what's most practical and fits your budget. Over the following pages, we've shown the cost of each material, so it's easy to compare. Whatever surface you choose, we recommend using trivets for hot dishes.

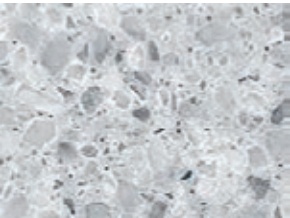

Specialist worktops need to be templated, so can only be measured for fitting once your kitchen units are in place. This adds an additional cost based on your layout and requirements.

The following pages show our ranges but we recommend that you visit a store to see a sample of your chosen finish.

YEARS

Wood worktops are proven to be the most naturally hygienic surface for food preparation, are highly durable and warm to the touch.

5-year guarantee included.

Image shows Character oak in white oil finish.

Character Grade
Deliberately has large colour variations and is more rustic in appearance. All trees have their own characteristics and not only vary between species, but also between each tree. Natural variants can appear within colour, grain or knots.

Prime grade worktop
Made from blocks of wood which have been selected to be as consistent as possible for colour, and with as few knots as possible.

Oils
We use a natural, non-pigmented penetrating oil on all our worktops with the exception of the Standard Character Oak (White Oiled) which uses a white pigmented oil.

All classic worktops are finished with a natural oil. Please note that colour and grain variations within this product may be greater than shown.

The Forest Stewardship Council® is an international nongovernmental organization that promotes environmentally appropriate, socially beneficial, and economically viable management of the world's forests. To learn more, visit www.fsc.org

5. Walnut

<div>1.</div> 	30mm 40mm 60mm	£542* £773* £1,134*	<div>2.</div> 	30mm 40mm 60mm	£687* £773* £1,134*
<div>3.</div> 	30mm 40mm	£542* £687*	<div>4.</div> 	30mm 40mm 60mm	£687* £773* £1,134*
<div>5.</div> 	30mm 40mm 60mm	£868* £1,134* £1,692*			

Classic worktops
These are manufactured by hand in the UK and are all made to order. They are constructed using full length staves which vary in width from 60mm to 170mm and are joined with a finger joint along the long lengths with non-toxic glue. Maximum lengths available 3.6m depending on current stocks.

LAMINATE

10
YEARS

Laminate kitchen work surfaces are an affordable, low-maintenance choice. Made of chipboard which has been surfaced with a high-pressure laminate, they are attractive, durable and easy to clean.

CORIAN®

10
YEARS

Corian® by DuPont™ is renowned for its strength and versatility and is even used on the exteriors of buildings. It can be moulded into many shapes, giving seamless curves and a smooth transition between fascias, sinks and worktops. Corian® is made from a blend of natural minerals and acrylic resin. Solid all the way through and non-porous, it's hygienic and very durable.

10-year guarantee included.
