Although great care has been taken to ensure these sizings are representational of our collection some items may vary slightly due to fabrics used.

Bust

For bust size measure around your chest at the fullest point of your bra cup. Measure under your arms, not around them and across the middle of your shoulder blades.

Natural Waist

Measure around the smallest part of your waistline. It's advised you leave one finger between your body and the measuring tape.

Hips

Stand with the heels of your feet together, keeping the measuring tape horizontally straight and parallel to the floor, measure around the fullest part of your hips.
