# The Harris Tweed collection for John Lewis

The Harris Tweed collection, manufactured by tetrad for John Lewis, is a set of stylish timeless pieces that will enhance your home. A very comprehensive range that comprises of sofas, chairs, storage boxes, footstools, scatter cushions and a recliner. All the Harris Tweed fabrics are available on all the shapes with the option of a contrasting leather trim.

The iconic Harris Tweed cloth has been handwoven in the Outer Hebrides for generations by master craftspeople. With wool from local flocks of sheep, then woven by hand on foot powered looms the cloth is a true 'Eco' material. Each single yarn contains several colours which gives the cloth its unique appearance and is a reflection of the natural environment.

The quality of the furniture goes far beyond the cover with solid hardwood glued, screwed & dowelled frames, sprung suspension systems, luxurious feather filled scatters and hand antiqued legs. We are sure your furniture will provide you comfort and pleasure for many years to come.

Made in UK

01/15 Printed on FSC approved material
