

BoostApak

“ This is such a great product.
I don't know how everyone doesn't
have one! - Louise ”

The car booster seat that doubles as a backpack

BoostApak is a backpack that doubles as a booster seat. It eliminates the need to hire a booster seat when travelling abroad, and is ideal for staying with friends or grandparents. It has a spacious 8 litre capacity, which means children can take their favourite toys with them, and the hard plastic shell protects contents from getting squashed when it's in use.

Features

The law requires all children under 12 years old or 135cm in height to use a booster seat so it's important to always have one with you. BoostApak's handy features make it the ideal solution.

1. Unique fold-out seat belt guides
2. Wipe clean removable cover
3. Spacious capacity
4. Hard plastic internal shell
5. Ergonomic back
6. Seat belt adjuster
7. High visibility reflective trim
8. ID tag

WARNINGS!

IMPORTANT! Only suitable if the approved vehicles are fitted with 3 point safety belts approved to ECE Regulation No16. The booster seat must only be used in vehicle seating positions indicated and facing in the direction of travel (forward). Please refer to the vehicle owners manual to clarify the suitability of other seating positions which may not be indicated.

NOTICE! 1) This is a "Universal" child restraint. It is approved to regulations No.44.04 series of amendments for general use in vehicles and will fit most, but not all, car seats. 2) A correct fit is likely if the vehicle manufacturer has declared in the vehicle handbook that the vehicle is capable of accepting a "Universal" child restraint for this age group. 3) This child restraint has been classified as "Universal" under more stringent conditions than those which applied to earlier designs which do not carry this notice. 4) If in doubt, contact either the child restraint manufacturer or the retailer.
