

## Product information

- Indoor use only
- Non-dimmable
- Replacement bulbs should be the same type and rating, available from John Lewis Partners or other established brands
- Clean the fitting with a soft dry cloth. Do not use abrasive chemical cleaners as this will damage the finish

## Aftercare and Troubleshooting

### You've switched on the light, but it's not working:

1. Check your power supply is switched on
2. Turn off the light and check that the bulb is inserted correctly
3. Check the bulb is still in working order

If there are technical issues with this product that you can't solve, please contact your nearest John Lewis & Partners shop or call Technical Support on 03301 230106.

Light fitting		1

### Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly. Gently pull away any protectors from the ends of the tubes. The fitting has been packaged as five separate parts to prevent damage during transit; please ensure all packaging has been removed

#### Step 1

Screw top assembly (4) on to tube (3), then screw on tube (2) and (1).

Take care not to trap the cable or cross the thread, firmly tighten the tube by hand.

Check all joints are tight.

#### Step 2

Pull any excess cable through from the underside of the base. Turn completed assembly anticlockwise approximately 6 times (Turning the tube anticlockwise first, ensures that the cable will straighten when tubes are fully assembled). Screw assembly in a clockwise direction on to the base. Take care not to trap the cable or cross the thread, firmly tighten the tube by hand.

#### Step 3

Gently pull the remaining slack cable through from the underside of the base. Tighten cable cord screw (X).

#### Step 5

Fit the bulb as per the instructions overleaf.

Do not exceed the wattage as recommended as this may cause damage to the light fitting.

#### Step 6

Your standard lamp is now ready to use. Switch on using the floor switch.
