Wall light

09/08/2018

Thank you for purchasing this Samantha wall light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Warnings!

This is a Class I product and must be earthed.
Please read these instructions carefully before commencing any work.
It is recommended that this fitting is installed by a qualified electrician.
Install in accordance with the IEE Wiring regulations and the Building Regulations.
To prevent electric shock switch off at mains supply before installing or maintaining this fitting.
Ensure other persons cannot restore the electrical supply without your knowledge.
If you are in any doubt, please consult a qualified electrician.
This light fitting should be connected to a 5 amp fused circuit.
If replacing an existing fitting, make a note of the connections.
This product is suitable for installation on surfaces with normal flammability e.g. wood, plasterboard, masonry. It is not suitable for use on highly flammable surfaces (e.g. polystyrene, textiles).
For your safety, always switch off the supply before cleaning or removing the shade.

Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly.

Step 1

Ensure the house electricity supply is switched off at the supply.

Step 2

Attach to the wall using the screws provided. Refer to Fig. 1. Make care to avoid damaging any concealed wiring and pipes.

Step 3

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product as shown. When completed, ensure that there are no bare or loose strands of wire exposed, and cover all exposed areas of the connection block with 2 layers of insulation tape.

Check that

You have correctly identified the house wires.
The connections are tight.
No loose strands have been left out of the connection block.

Step 4

Attach the wall light to the wall bracket by screwing the screws through the side of the wall light and into the bracket, ensure all wires are away from the edge.

Step 5

Fit the bulb per details overleaf. Observe the correct type and wattage; never exceed the correct type and wattage.

Step 6

Replace fuse or circuit breaker and switch on using the toggle switch on the base of the wall back. Your light is now ready for use.

Care instructions

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.
