## Care and Maintenance

---

The John Lewis Loafey bedroom collection is crafted from solid Oak and Oak veneers and then finished with a light lime wash and lacquer.

The woods and veneers used in this furniture have been specially selected for their natural beauty and characteristic appearance. Wood is a unique material and as such no two sections are identical. The depth and shade of colours and grain pattern will vary from item to item. All timber surfaces when subjected to direct or indirect sunlight will mellow and change colour over a period of time. New furniture may vary in shade from items previously purchased.

This piece of furniture will endure most temperatures in the modern home. However, it should be positioned as far away from radiators, or other direct heat sources as possible.

Wipe with a damp cloth to clean. We do not recommend the use of furniture polish, waxes or creams as these could leave a residue on the surface of the wood and may permanently change its appearance.

### Warning!

Never drag furniture when moving it, always lift it. Periodically check all fixings to ensure none have come loose and re-tighten where necessary. Please take care when handling or moving the furniture as careless handling may cause damage or injury.

Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

It is recommended that before moving heavy objects to a new location they are completely disassembled to avoid personal injury or damage to the furniture. Please be careful to retain all fittings when doing this.
