Care guide

Care and maintenance

PU upholstery

Protect PU upholstery from spillage, sunlight and heat. A slightly damp cloth is the best cleaning agent. Do not use any abrasive cleaner or harsh detergent as this can damage the surface.

Velvet upholstery

Protect velvet upholstery from spillage, sunlight and heat. The fabric may be vacuumed and, if necessary, carefully spot-cleaned. Spot-cleaning agents should only be used after first testing on a less visible area of the fabric. Fabrics like velvet can appear to change colour when looking at it from different directions or if pressed down. This is natural for the type fabric and is not a defect.

Safety instructions

Never drag furniture when moving it, always lift it.

Periodically check all fixings to ensure none have come loose and re-tighten where necessary.

Please take care when handling or moving the furniture as careless handling may cause damage or injury.

Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person.

No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

Always ensure the feet provided with this product are suitable for your flooring.

Periodically check the position of any foot caps/felt pads used to ensure your floors are protected.

Retain these instructions for future reference.
