User manual

Harry

Floor light

25/01/2018

Thank you for purchasing this Harry Floor Light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Warnings!

This is a Class II product and must NOT be earthed.

Please read these instructions carefully before commencing any work.

For your safety, always switch off the supply before cleaning or removing the shade.

Your standard lamp has been packaged as separate parts to prevent damage during transit.

If you are in any doubt, please consult a qualified electrician.

Parts list	Image	Qty
Light fitting (5 sections + base)		1
Shade		1
Grub screws		2
Allen Key		1

Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly.

Step 1

Taking care not to trap any cables, and to avoid cross-threading, screw together the sections of stem (1-4).

Step 2

Gently pull any excess cable through the base and slide the stem into the base (5), and secure using the grub screws and Allen key (6)

Step 3

Remove the shade ring (8) from the lampholder, place the shade (7) over the lampholder and refit the shade ring. Tighten to secure the shade in place.

Step 4

Fit the bulb (9) as recommended over-leaf. Do not exceed the recommended rated power as this may cause damage to the light fitting.

Step 5

Unbundle the cable from the cable tie. Your floor lamp is now ready to use. Switch on using the floor switch.

Care instructions

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.
