User manual

Selsey Semi-flush light

Thank you for purchasing this Selsey semi-flush light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Warnings!

This product is Class II (double insulated) and must not be earthed. If there are any incoming earth cables, they must be joined together and well insulated with good quality insulation tape. This is to ensure Earth continuity throughout your property.

It is recommended that this fitting is installed by a qualified electrician.

Install in accordance with the IEE Wiring regulations and the Building Regulations.

To prevent electric shock switch off at mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electrical supply without your knowledge.

If you are in any doubt, please consult a qualified electrician.

This light fitting should be connected to a 5 amp fused circuit.

If replacing an existing fitting, make a note of the connections.

This product is suitable for indoor use only, on normal flammable surfaces.

This product is suitable for use with a dimmer switch. Some energy saving bulbs are not suitable for use with a dimmer switch.

For your safety, always switch off the supply before changing lightbulbs, or cleaning.

Always take care when handling lightbulbs to avoid injury in case of breakage.

Shade ring		3
Screws	Guunnuur>	2
Wall plugs		2

Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly.

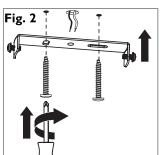

Step I

Before removing the existing fitting, carefully note the position of each set of wires.

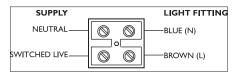

Step 2

Referring to Fig. I, remove the fixing bracket (A) from the ceiling cover by removing the side screws (B).

Step 3

Referring to Fig. 2, attach fixing bracket to the ceiling using the fixings provided. Ensure there is a joist at the point of fixing to support the weight of the product. Take care to avoid damaging any concealed wiring and pipes.

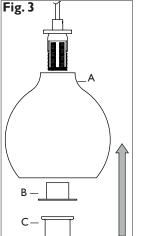

Step 4

Having identified the household wiring from your existing light fitting, connect to the connection block inside the product in the following way.

Check that:

- You have correctly identified the house wires.
- The connections are tight.
- No loose strands have been left out of the connection block.
- The lid is fitted back onto the terminal block case.

Step 6

Attach the product to the fixing bracket using side screws (B - see Figure I), by locating the screws in the bracket into the holes in the ceiling cover and tightening the screws to secure.

Step 7

Fit the shades (A) by carefully slotting over the lampholder, followed by the spacer (B) and secure with the shade ring (C). Take care not to allow the shades to knock together.

Step 8

Fit the bulb as per the details overleaf. Replace fuse or circuit breaker and switch on. Your light is now ready for use.

Care instructions

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.
