Thank you for purchasing this Emilia crystal wall light.
Please read these instructions carefully before use to ensure safe and satisfactory operation of this product.
Please keep these instructions for future reference.

Warnings!

The fitting is class II.

This fitting should be fitted in accordance with IEE Regulations and the Building Regulations. If in any doubt, or where required by law, consult a competent person who is registered with an electrical self-certification scheme. Further information is available online or from your Local Authority.

To prevent electric shock switch off at the mains supply before installing or maintaining this fitting. Ensure other persons cannot restore the electricity supply without your knowledge.

If you are in any doubt, please consult a qualified electrician.

If replacing an existing fitting, make a note of the connections.

Always use the correct type and wattage bulb. Never exceed the wattage stated.

When changing a bulb, always switch off at the mains and allow the old bulb to cool down before handling.

Dispose of used bulbs carefully.

Caution! The bulb and surrounding parts can become hot during use.

Care instructions

We recommend cleaning with a soft dry cloth.

Do not use abrasive materials as these will damage the finish.

Replace bulbs from John Lewis or established brand of the same type and compatibility.

Indoors use only.

Dimmable.

Assembly

Ensure the house electricity supply is switched off at the fuse board.

Step 1

Ensure that the bracket (supplied) is fixed to a wall which will support the weight of the fitting.

Step 2

Connect cables or terminals as shown below:

Check all wires are tight in the terminal block, and no loose strands are left out. Cover with insulating tape (not included).

Step 3

Attach wall light (5) to bracket (8), and then attach crystal chains (7) to main frame. Fit the light bulb (9) (not included) into the lamp holder. The maximum power indicated must not be exceeded.

Step 4

Attach aluminium rods to main frame as shown.

Switch on the electricity supply at the fuse board.
