User manual

Mia

Floor light

23/01/2019

Thank you for purchasing this Mia floor light. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

## Warnings!

This is a Class II product and must NOT be earthed.

Please read these instructions carefully before commencing any work.

Your standard lamp has been packaged as separate parts to prevent damage during transit.

When manoeuvring or assembling this product, it must be lifted from the bottom.

If you are in any doubt, please consult a qualified electrician.

For your safety, always switch off the supply before cleaning or adjusting.

This product is suitable for indoor use only.

## Parts list

Parts list	Image	Qty
Light fitting		1
Legs, top & bottom		2
Long screw (in legs)		9 2 Spare
Shade		1
Hex key		1
Support struts		3

## Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly.

### Step 1

Start by screwing together the leg containing the electrical cable (1), gently tug the cable through, (2) ensuring it is not trapped or strained. Assemble the other legs. Attach all three to the lampholder (3) using the hex key provided (4), so they are fitted but not tight - this will allow easier assembly of the struts.

### Step 2

Affix the supporting struts to the inside of the legs, using a cross-head screwdriver (not included). Firstly affix the bottom of the strut (5) on 1 leg using 1 screw. Then affix the top of the struts (6) on the opposite legs using 2 screws. Repeat for the other two struts, making sure the longer metal wire is positioned outside of the shorter metal wire. Ensure you line up the holes in both leg and strut for ease of screwing together. Finish tightening the lampholder grip (4) to hand-tightness.

### Step 3

Unscrew the shade ring (9), place the shade (8) over the lampholder (7), then secure in place with the shade ring. Fit the bulb (10), per the recommended details overleaf.

### Step 4

Plug in and switch on using the lampholder switch. Your lamp is now ready for use.

## Care instructions

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.
