User manual

Oliver

Floor lamp

16/10/2018

Thank you for purchasing this Oliver floor lamp. Please read the instructions carefully before use to ensure safe and satisfactory operation of this product.

Warnings!

This is a Class II product and must NOT be earthed.

Please read these instructions carefully before commencing any work.

Your standard lamp has been packaged as separate parts to prevent damage during transit.

When manoeuvring or assembling this product, it must be lifted from the bottom.

If you are in any doubt, please consult a qualified electrician.

For your safety, always switch off the supply before cleaning or adjusting.

Parts list

Parts list	Image	Qty
Light fitting		1
Hex key		1

Assembly

Refer to assembly drawing opposite. Carefully unpack the carton, making sure all the parts are present before assembly.

Step 1

Refer to Fig. 1: Join the upper (A) and lower (B) sections of stem together with the two screws (C)

Please ensure the screw holes of both A & B stem sections are aligned before joining. These will fit with ease and should not be forced if orientated correctly.

Step 2

Refer to Fig 2: Slot the stem into the base (A) and gently pull through any excess cable (B). Secure the stem into the base using the grub screws and hex key (C).

Step 3

Plug the lamp in and switch on using the toggle switch on the lamp head. The angle of the light can be adjusted by titling the lamp head to the required angle. **PLEASE NOTE:** The lamp head will become hot during use. Always switch off and allow to cool before adjusting the lamp head.

Care instructions

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.
