

#### Caring for your product

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.

Replace bulbs from John Lewis or established brand of the same type and compatibility.

#### Aftercare and Troubleshooting

Please ensure all screws and small pieces are properly tightened to the product.

When changing a bulb, always switch off the mains and allow the bulb to cool down before handling.

A bulb's watt rating indicates how much energy it uses. The higher the watt, the more energy it requires. Lumens is a measure of brightness. The higher the number of lumens, the brighter the light.

#### Specification

Max. power: 40W

Recommended bulb

1 × 10 watt E27 LED bulb

Bulbs replaceable

Bulbs not included

Product assembly

1. Carefully unpack the carton, making sure all parts are included before assembly. Place lamp parts on a flat surface.

2. Unscrew pre-set screw (C), insert tube (B) into tube (A), and screw pre-set screw (C) back into the hole in tube (A) with Allen wrench (D) until tight.

**Note:** You may need to pull any excess cord gently from the base.
