
Caring for your product

We recommend cleaning with a soft dry cloth. Do not use abrasive materials as these will damage the finish.

Replace bulbs from John Lewis or established brand of the same type and compatibility.

Aftercare and Troubleshooting

Please ensure all screws and small pieces are properly tightened to the product.

When changing a bulb, always switch off the mains and allow the bulb to cool down before handling.

A bulb's watt rating indicates how much energy it uses. The higher the watt, the more energy it requires, Lumens is a measure of brightness. The higher the number of lumens, the brighter the light.

Specification

| G Washer |  | 1 PC |
| H Nut |  | 1 PC |
| I Wrench |  | 1 PC |

Recommended bulb

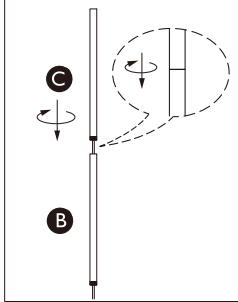

1 × 10 watt E27 LED bulb
 Bulbs replaceable
 Bulbs not included

Product assembly

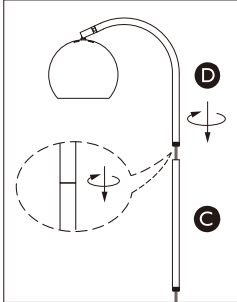

1. Carefully unpack the carton, making sure all parts are included before assembly. Place lamp parts on a flat surface.

2. Screw tube (B) into tube (A) until tight.

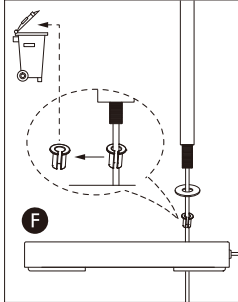

3. Screw tube (C) into tube (B) until tight.

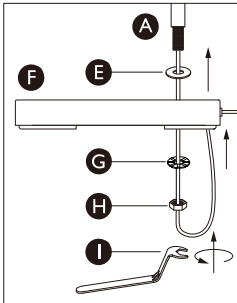

4. Screw tube (D) into tube (C) until tight.

Note: The shade and switch should face forward. The cord should come out of the back of the base.

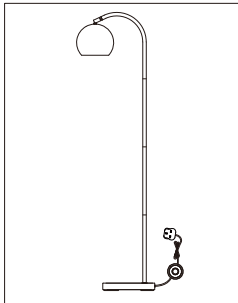

5. Remove the cord protector and throw it away before assembling lamp base (F).

6. Insert tube (A) into base (F) & washer (E). Tighten nut (H) to washer (G) using wrench (I).

Note: You may need to pull any excess cord gently through the tube from base.

Note: When assembling, keep in mind that this arc lamp should face forward with the cord coming out of the back of the base.

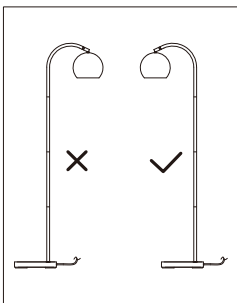

Diagram showing the lamp should be assembled facing forward (marked with a checkmark) and not backward (marked with an X).
