You have correctly identified the house wires.

- •The connections are tight.
- $\bullet \mathsf{No}$ loose strands have been left out of the

connection block.

•Ensure the grommet is in place to maintain IP rating.

Re-attach the light fitting to the back plate (C) by locating the screw holes over the screws and replacing the rubber washers and the finials (B) and tightening them securely. Fit the recommended bulbs.

Refit the shade (A) onto the light fitting ensuring drain hole (E) is at the bottom. Refit top and bottom washers and screws and tighten to secure.
