This model has all the usual computerised features of a Janome machine and is an absolute dream to use. Select your stitch and the large screen indicates the optimum stitch settings ( which you can over-ride ) and the correct foot to use. Not only can you memorise a sequence of stitches or names but you can save these into a memory bank for future use.

There's plenty of accessory storage and a hard cover for protection.

Weight – 8.8kg
