| <ul style="list-style-type: none"> • Fully computerised • Maximum speed controller • Programmable needle up/down • Lock stitch feature • 50 Built-in stitches | <ul style="list-style-type: none"> • Auto 1-step buttonholes (3 styles) • Auto needle threader • Information window • Drop feed for freehand embroidery |
|--|---|

Fully computerised with extra needle penetration power and a 7mm stitch width, this model is an impressive first level computerised model. Special features include an automatic needle threader, a speed controller to set the maximum sewing speed and a needle up/down button which programmes the needle to either finish in the up position or in the fabric .. great for pivoting on corners ! It has a lock stitch button to ensure every stitch pattern is locked off at the end. Packed with great features, this model offers great value for money. There's plenty of accessory storage and a soft cover for protection.

Weight – 7.8kg
