

## Look under the covers

**Sleep surface**  
The hypoallergenic, breathable sleep surface provides freshness, with a zip-off top for easy washing.

### Cool innovation

We've developed our own special layer, called Simbatex, which channels heat away for cooling comfort.

### Spring-powered

2,500\* pocket springs are specially shaped to move with you individually for top-to-toe support.

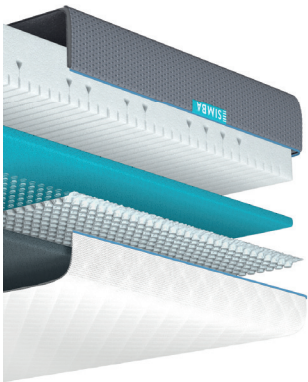

### Shaped for you

Visco memory foam moulds to your body shape, so your mattress feels tailor-made.

### Zoned comfort

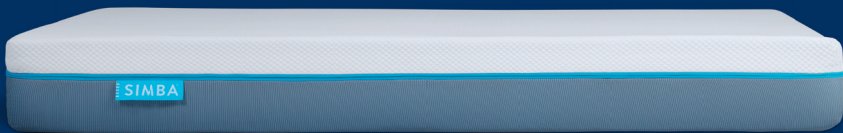

Our perfectly engineered base gives medium-firm support with seven responsive zones to suit any body type.

\*Spring count is calculated to be the equivalent no. of springs in a king size mattress

## Simba Hybrid® Mattress

The **support** of 2,500 patented conical pocket springs meets the **comfort** of memory foam, with a unique **cooling** layer.

We're confident it'll be love at first night, but you get **100 nights to try it, risk-free**, in your own home.

John Lewis & Partners

Wake up to a better night's sleep.

Simba is more than a mattress company. Our products are made to change the way the world sleeps, one bed at a time.

Everything we create is built on innovation, to answer the common sleep problems that people experience every day. We started with the mattress – the most important element.

A good mattress should support you without any painful pressure points, keep your spine aligned, and evenly spread your body weight. The award-winning Simba Hybrid® ticks all of these boxes, and more.

Scientifically engineered with five layers which work together, it brings you the comfort of memory foam and the support of springs – without the limitations of either. And it's designed with data from ten million sleepers to suit every body type and sleep style.

Bed sizes

**Double**  
W147 × L208 × D104 (cm)
