

# Alex cot

## Instruction manual

John Lewis

**IMPORTANT**  
**RETAIN FOR FUTURE REFERENCE**  
**PLEASE READ CAREFULLY**

Thank you for purchasing this Alex cot. Please read the instructions and warnings carefully before use to ensure safe and satisfactory operation of this product.

Your child's safety is your responsibility. If you have a query with this product or require replacement parts, please contact your nearest John Lewis department store.

Lay out the parts on a soft level surface and compare to the part/fixings checklist on page 2. Do not discard any packaging until you are sure that you have all the parts.

Keep children clear during assembly as pack contains small parts which may present a choking hazard.

Recommended mattress: 60 x 120cm

This product complies with BS EN 716 - 1: 2008 + A1 2013

### Fixings

### Parts

You will need:

1 x 6mm Allen Key (supplied)

Flat-headed screwdriver

## Cot assembly - step 1

(Do not fully tighten bolts at this stage)

Push two barrel nuts (fixing 3) into the holes at one end of the base (part C) as shown above. Make sure that the slots are visible and, if necessary, use a flat-headed screwdriver to ensure that the slots point towards the holes in the ends as shown. Select one of the 3 base heights and attach an end (part A) using two 65mm bolts (fixing 1). Do not fully tighten the bolts at this stage.

## Cot assembly - step 2

Attach a cot side (part B) using two 45mm bolts (fixing 2) passed through the holes in the cot side, then into the threads in the cot end (part A). Repeat step 2 for other side. Attach the second cot end (part A) to the base (part C) using the remaining bolts (fixing 1) and barrel nuts (fixing 3). Finally attach the second side (part B) using the remaining bolts (fixing 2). Once all parts are in place, ensure all bolts are fully tightened. Your cot is now ready for use.

## **Care and maintenance**

Your furniture may be cleaned by wiping with a damp cloth and drying with a soft clean cloth. Do not use abrasives, bleach, alcohol or ammonia-based household polishes. Take care when handling or moving the furniture. Careless handling may cause damage.

## **Safety notes**

Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person.

Keep children clear during assembly as pack contains small parts which may present a choking hazard.

Warning: Be aware of the risks of open fires and other such sources of strong heat, such as electric bar fires, gas fires, etc. in the near vicinity of the cot.

Warning: Do not use the cot if any part is broken, torn or missing and use only spare parts approved by the manufacturer.

Warning: Do not leave anything in the cot or place the cot close to another product, which could provide a foothold or present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords, etc.

Warning: Do not use more than one mattress in the cot.

The lowest base position is the safest and should be used as soon as your baby is old enough to sit up.

The thickness of the mattress chosen must not reduce the internal depth (from the top of the mattress surface to the top of the side) to less than 500mm with the base in its lowest position or 200mm with the base in the highest position.

The mattress should be no more than 30mm shorter or narrower than the internal length or width of the cot. Suitable for use with a mattress of 1200mm in length, 600mm in width and a maximum thickness of 100mm.

All assembly fixings should always be tightened properly. Periodically check all fixings to ensure none have come loose, and that there is no risk of clothing or parts of the body becoming snagged or trapped.

To prevent falls, when the child is able to climb out of the cot, the cot should no longer be used for that child.

Do not allow your child to jump on the cot. This may result in damage to the furniture and/or injury to your child.

Retain this information leaflet for future reference.
