

THE SECRET TO
THE ART OF HIGHLIGHTING
IN 5 MINUTES

YVES SAINT LAURENT

THE ART OF HIGHLIGHTING

Blend **Touche Éclat** under your eyes to cover dark circles & look like you've had a good night's sleep. Blend along the brow bones to highlight.

Blend **Touche Éclat** across the eyelid to even out skin tone. This will also act as a perfect primer to fix eye shadow in place.

Sweep a light shade of **Touche Éclat** along the top of the cheek bones to highlight. Use a darker shade below the cheek bones to contour and add definition to your face.

Add a dab of **Touche Éclat** in the Cupid's bow of your lips for a plumping effect.
